## RAGTIME AND GRAND OPERA AT CAMP LEWIS

Music in All Parts of the Camp Two Hundred Grafonolas Are Presented

CAMP LEWIS, Tacoma, Wash., NORTHWEST LETTER.—United Press Sept. 24.—(U. P.)—Twenty thousand men here today are learning to be soldiers to the tune of ragtime, popular ballad and grand opera. Music is in the air, from one end of the camp to the other, from early morning until the men turn in at night. Phonographs are scattered everywhere through the camp. Ukuleles and other musical instruments are almost as numerous. And then, the boys are a cheerful lot and they sing and whistle to their hearts' content.

One Tacoma man alone gave the soldiers to-be 200 grafonolas and a set of records with each machine. The instruments were distributed about the camp so all the men could enjoy their music. This donor made the gift on one condition—that his name should not be revealed.

Camp Lewis is the most democratic spot in the Northwest. Rich and poor, men of all nationalities and several colors are working side by side, preparing to help down Kaiserism. Take Montana's contingent. Miners and farmers predominate, but there is Benjamin F. Sherrer of Billings, a successful theatre man whose income averaged \$1,000 a month. C. G. Kelsey, another Billings man, made \$300 a month. Kelsey made a personal request that he be allowed to go with the first quota, although he is married and probably could have successfully claimed exemption.

A statistical section, comprising three officers and two clerks, has been assigned to the 91st division here. This section will go with the division to France and will collect and forward lists of dead, wounded and missing. Major General H. A. Greene, commandant of the camp, is singing the praise of the men gathered here under the selective service act. He declares the men are of an unusually high type and will make fine soldiers.

DeWitt Van Court, veteran California boxing instructor, considered one of the best boxing instructors in the United States, has been assigned to Camp Lewis by James J. Corbett, it is persistently reported here. Leach Cross, the dentist lightweight, may assist Van Court. The men will be encouraged to take up athletics.

## QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of Salts if Back hurts or Bladder bothers—Drink lots of water.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble. The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system. When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe head aches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

This Jantzen sweater is designed especially for young fellows at school or college.

The Jantzen factory supplies many schools and colleges with sweaters in their own colors. Order through your dealer. Pure wool.
