Self-Government for India Is in Sight

By Lowell Mellett, United Press Staff Correspondent
LONDON, Sept. 10.—(By Mail)—William Jennings Bryan will be glad to learn that self-government appears to be in sight for India. All friends of democracy, of course, will be glad, but Bryan particularly, for he will not have forgotten the howl that arose when he told the English right here in London that self-government was due India as its right.

Announcement of the fact has been made in connection with the preparations for a visit to India by Edwin S. Montagu, new secretary for India. This is the same Montagu, who, before he became secretary denounced India's governmental system as "too wooden, too iron, too inelastic, too antediluvian" for modern needs. Explaining what it is hoped to accomplish, the new secretary made it clear he was voicing a government program, not his own ambition as a reformer.

This program, in his language, is to take "substantial steps towards increasing the association of the Indians in every branch of the administration, gradual development of self-governing institutions, progressive realization of responsible government in India, as an integral part of the British Empire." Liberals in England regard the steps being taken as one of the greatest advances for democratic government the world has witnessed. India with its large population divided into castes, races and religions must have some experience of self government, they say, before the entire machinery is turned over to them.

A plan originating in India is being considered and may be acted upon favorably. This provides that each province of India shall have its own legislative council and administrative organization, under a British governor, independent of the Indian central government at first; gradually this central government would exercise the functions of a federal government.

SKIM MILK NOT USED ACCORDING TO VALUE

O. A. C., Corvallis, Oct. 3.—(Special to the Democrat)—Skim milk has many uses that appeal to those who are familiar with its nutritious qualities. It is used to great advantage in combination with other food materials, especially in cooking. It is too valuable to be wasted, says Miss Inez Bozorth, of O. A. C.

It adds quality as well as food value and, used in bread in place of water it adds as much tissue building material as is contained in one egg. In the preparation of cereals it is still more important because it is three or four times the amount of the cereals. Used instead of water to cook a cupful of cereal in three cups of liquid, it adds as much protein as is contained in three eggs.

By combining skim milk with the juice and pulp of vegetables, many dishes may be prepared of these vegetable milk soups. The raw vegetable is chopped up and cooked in a double boiler with the milk. It is then thickened with flour or some cereal and enriched with butter or other fat. Try the following milk chowder:

In making rich chowder, the proportions are:
2 cups milk.
1 cup potatoes cut small.
1 pound of fish.
The flavoring is onions and fat from salt pork. It is possible to reduce the amount of fish or leave it out entirely, and use small portions of left-overs or corn.

McCLURE SALE IS BIG SUCCESS

A large crowd attended the sale held on the D. C. McClure place in Benton county yesterday. It was pronounced one of the most successful events of its kind ever held in the county. About \$4,000 worth of stock and farm machinery changed hands. Good prices were received for everything. Two spans of horses brought \$410 and \$325 each. Registered Hblsteins sold for from \$100 to \$285. Sows and pigs commanded from \$40 to \$65. Some of the farm machinery sold for present retail prices. It was bought when prices were lower and was in perfect condition. The sale was conducted by Ben T. Sudtell. Today Sudtell is conducting a sale for Henry Churchill at Crabtree, and Friday a sale will be held at the J. C. Neil place near Brownsville.

TRAINS YOUNG PEOPLE FOR CIVIL SERVICE WORK

O. A. C., Corvallis, Oct. 3.—(Special to the Democrat)—Young men and women of Oregon who wish to take the civil service examinations in type writing, stenography, applied economics, etc., for which the demand at this time is so great, will find courses arranged especially to suit their needs in the O. A. C. school of commerce. Advertisements for stenographers were recently placed in every paper in the country by the U. S. government, urging that schools come to the relief by providing training. The demand is almost without limit, excepting only those who are not able to deliver the goods.

MARKET REPORT

The prices given in the local quotations are those asked by the wholesaler from the retailer for fruit and vegetables. All other prices are those paid the producer. List corrected daily.

Vegetables

Table listing vegetable prices for Potatoes, Beans, Lima, etc.

Livestock

Table listing livestock prices for Prime steers, Hogs, Cows, Calves, Sheep, etc.

BRITISH WOMEN REFUSE TO WEAR THEM AT ALL

LONDON, Sept. 6.—(By Mail)—The British have another revolt on their hands—the breeches rebellion. A body of women workers of Buckinghamshire drew up resolutions against the use of the bifurcated garments which are becoming so popular. Some of the younger girl workers intimate there are other reasons than purely ones of modesty.
