## Campaign Against Immodest Dress to Start Soon

SPOKANE, Oct. 4.—(U. P.)—A conference will be held here, probably within the next three weeks, to map a campaign against immodesty in women's dress. George Sommer, president of the board of directors of the Florence Crittenton mission here, one of the men back of the proposed conference, said today in explaining the purposes of the meeting: "The prevailing style of dress—low necks, short skirts and suggestive attire—is working social and civil evils that are little understood."

## Spokane Thief Wants Things That Count

SPOKANE, Oct. 4.—(U. P.)—A thief broke in to the store of C. C. Williams and stole his adding machine and his Ford.

The next day the Ford was found—but not the adding machine.

"Thief evidently wants only things that count," mused the puzzled cop.

PENDLETON, Oct. 4.—(U. P.)—Marriage may have its drawbacks, but separation is much worse. Divorced a few days ago, Rosie Pierce, Indian, and Mike Pierce, half-blood, today are married again. The divorce decree was signed September 15.

## S. P. CO. TAKES LIBERTY BONDS

### Will Advance Employees 25 Per Cent of Salaries for Bonds

William Sprulle, president of the Southern Pacific company, fired the opening gun in the West's second Liberty Loan campaign with the announcement last night that the Southern Pacific has subscribed for \$5,000,000 of the new four per cent war bonds. Announcement was also made that, in order to enable its employees to participate in the new loan, the company will, upon the request of any employee, subscribe for any amount of bonds desired, but not exceeding 25 per cent of the yearly salary, and will advance the whole subscription price, allowing the employees to repay the amount advanced in monthly installments over a period of two years.

This company made a similar offer to its employees with respect to the Liberty Loan three and one-half per cent bonds (to which the Southern Pacific itself subscribed five million dollars) and at that time 19,720 employees representing 27 per cent of the total number of persons employed on all the company's lines, subscribed for an aggregate amount of \$1,918,800.

The Southern Pacific has also undertaken to circulate the patriotic posters which are to be used in furthering the campaign and will display the posters all over its system.

### WHEN MEN GROW OLD.

#### One Sure Sign is Said to Be an Increasing Waistline.

When does a man get old? What are the signs? Some will say instantly gray hair, baldness, stiff knees, shortness of breath, and so on. An eastern authority rejects all of these as proofs of age and cites doctors to prove that there are two invariable signs—an increasing waist line and a decrease of physical agility. These indications may not show themselves until a man is forty or fifty, but they may manifest themselves at twenty-five. Whatever the time, the man is old.

This is rather an arbitrary ruling, but it has a sane basis no doubt. There are many men, of course, who by force of nature rather than any care of their own, retain a squareness of figure until they are far along in life, and usually with this slowness is activity of movement. But the average man not engaged in active physical labor that keeps superfluous flesh down is extremely likely to develop increased girth in comparatively early years, and, whether or not it classifies him among the old or even elderly, it does take him out of the realm of youth. However youthful a man may feel, no one longer mistakes him for a boy when that big waist line comes.—Indianapolis Star.

### Why 1881 Was Chosen.

In 1881 a so called prophecy of Mother Shipton's was in every one's mouth. The world then to an end shall come in eighteen hundred and eighty-one.

A traveling tailor denied inspiration to this prognostic, not, as now appears, was it remarkable for accuracy. But he went further. He demonstrated in the dust of the road why that exact date was chosen. Not only is it a fantastic, a multiple of nine, etc., but it was the only date available to Mother Shipton, which in Arabic numerals was the same backward, forward and upside down. Eleven hundred and eleven was past, and not till 1881 would the coincidence recur. The next Mother Shipton will select 8008, which is not tomorrow or next day.—London Globe.

### STARS IN BASEBALL.

They Are Really Essential to the Success of a Club.

It is absolutely necessary for each and every major league club to have at least one unusual, brilliant performer on its roster to be a good gate attraction, and more often than not these stars are pitchers.

Remember the Chicago White Sox of 1907? Ed Walsh was the star who did most to place that team in baseball history. Though he received but a little attention from Joe White, who made the clubs of a few years ago the best of the best in baseball? Why, Christy Mathewson, to be sure. He was a star of stars and in fair or foul weather it was he whom the rooters paid to see. Phred, Cronin and Knicker did more to make the Athletics famous than did all of the other great players on the team put together. Through the various infield, consisting of Melnick, Collins, Barry and Baker, was a first class attraction in every sense of the word. But few other clubs in the game's history ever had anything approaching this evenly balanced outfit in its best days.

Bill James in his time came pretty close to making the Braves, and Bill Donovan, Ed Reulbach, Mordcael Brown, Babe Adams, Joe Wood and Grover Alexander all have played leading roles as gate attractions.

What would the Senators have been for years without Walter Johnson? Is it the Tigers or Ty Cobb whom the fans want to see at play? Hal Chase featured the Yankees for years, for many seasons Speaker has been the leading figure with the teams with which he played, and Joe Jackson, Marquard and Lajoie all had large individual followings.

Today a new crop of stars has just about "arrived" and are pulling the crowds.—Ed A. Goewey in Leslie's.

### Fame and Shyness.

In his book, "A Soldier's Memories," Sir George Younghusband tells a typical story of Rudyard Kipling and Cecil Rhodes.

It was during the Boer war, when they came to camp and introduced themselves unconventionally. As they were leaving the soldiers gathered to see and cheer them.

Said Cecil Rhodes hastily:

"Take off your cap; they are cheering you."

Said Rudyard Kipling:

"No, they are not. They are cheering you. Take off your cap."

Then some one at their elbow suggested:

"I think they are cheering you both."

Whereupon both, clinging close to each other for support, shyly took off their caps.

### The Handy Man.

The "jack of all trades," known familiarly as the handy man, is a person whose knowledge and training are not based on the fundamental rules of any craft. Handy men are the bone of any industry, and more especially of high grade machine shops, for their work cannot be relied upon. Doubtless it is a good thing to know something about everything, but the perfect mechanic and high grade foreman is the man who knows everything about something.—George W. Bowie in Industrial Management.
