"WONT WORKS" PLACARDED

CINCINNATI, Oct. 16.—(U. P.)

—"Ordered from city, a loiterer; won't work."

—"Ordered from city; a bum, won't work."

—"Ordered from city; a panhandler; won't work."

These phrases, printed on cardboard hereafter will adorn the backs of those who are wont to partake of the city's hospitality without working. Municipal Judge Yeatman and Prosecutor Morrissey are creators of the method for driving undesirables from the Queen City. It's planned to make future offenders march through the streets with the tags fastened to their backs.

Silver Is Short

In the Northwest

TACOMA, Oct. 17.—(U. P.)—The Pacific coast is suffering a dollar famine.

Efforts to obtain a large number of silver dollars or dollar bills in Seattle, Portland and San Francisco by the paymaster's department at Camp Lewis failed and a hurry-up order for a shipment may be sent to Washington.

Bankers explain that the dollar famine is due to the fact that many are hoarding dollars. The prevailing market price of silver is high and some figure that within the next advance a silver dollar may contain more than 100 cents worth of metal.

STOCKYARDS MARKET REPORT

NORTH PORTLAND, Oct. 16.—(Special to the Democrat)—Conditions in the livestock market continue active in the Northwest with heavy shipments received at the Portland Union Stock Yards for the week's opening. A healthful tone prevails in all departments of the market, with a substantial show of strength in the cattle department, and some signs of weakness in the hog department. The cattle that appeared in the yards for the week's opening show splendid breeding and splendid husbandry. The per cent of good cattle on the market was much larger than that which was shown last week, and still the demand for good cattle continues strong. The price of finished steers was advanced about 25 cents, and 25 cents was added to the top end of bull prices in this week's trading with a strong tone to all other classes. One load of extra good cows cleaned off hands at \$8.90, and aside from this the cow top was \$7.80, which shows a strong tendency in this class. The bulk of first grade steers went at \$10 to \$10.10, and the bulk of first grade cows went at \$7.50.

The hog market opened up with sluggish tendencies and dealers here carried marks of an oncoming decline. Top crossed the scales at \$17.35, and the bulk of hogs sold for 17 cents, with not a few changing hands as low as \$16.85, no Southern hogs going higher than \$17. The bears seem to be getting the best of things in the hog market throughout the country, and Portland is in the wake of the general decline. The week's opening in the hog market is pointing towards a lower price level.

The sheep market is opening the week with the same tendency to strength which was shown in the closing hours of the previous week's trading. A heavy shipment of breeding ewes changed hands in the open market this morning at \$15 to \$17. Other classes continue at the same quotations as previously issued, with an active demand for wethers and lambs in the killing classes. Wethers are selling at \$11.75 to \$12.25, and lambs are changing hands readily at 14 cents.

THE HUMDRUM LIFE OF BRITISH FLYING BOYS

LONDON, Sept. 27.—(By Mail)—The everyday humdrum life of the boy aviators on the Western front reads like a page torn from a book of fairy tales. Here is a story of one of the dull days, as told by a rosy-faced youth of 19. He was back in "Blighty" recovering from a machine-gun wound.

"What—you want to write a story about how I got this?" he laughed in embarrassment. "It was just an ordinary day—no story in it—Americans wouldn't care to hear it."

"This particular Hun had got old Regan—sent him down blazing. So we were after him. He usually came snooping over our way 'bout sunup. Poor old Regan. His only fault was that he adopted stray dogs."

"Anyway, this Hun bird came sailing over impudently the other morning about 5 o'clock. I skipped out to the aerodrome. All the boys were yelling good lucks to me. After that nothing but the roar of the engine."

"There were a few chunks of white cloud—bully for ambushes—if the other fellow doesn't do the ambushing."

"Once before this bird had caught me with nothing to feed Lizzie, my domesticated machinegun, and jolly well chased me right down to our backdoor."

"Before I got up much I was getting 130 out of her—old engine singing like a cricket. I went up 10,000 feet, keeping my eye peeled for Fritz. He was sitting under a cloud somewhere, evidently. While I was nosing around the corners of the clouds I caught sight of a shadow on a cloudbank below. It was my meat."

"You bet I took a quick look at my fixtures, got a trayful of food ready for Liz, hummed the 'Invitation to the Waltz' and began to slide a bit. But I fell clean into a pocket,
