SETTLING STRIKES

Since the United States declared war, about 300 strikes, or labor controversies that might have led to strikes, have been settled by federal mediators of the department of labor. They involved directly 700,000 men, and indirectly 300,000 more. Thus, in the short period of six months, 1,000,000 workmen have had their claims adjudicated, to their own satisfaction, without the loss and bitterness that always come from labor wars, and without a dollar's expense for the service rendered. Their employers have benefited no less. Mediation was not uniformly successful, but it failed in less than one-seventh of the cases handled. The board is keeping right on with the good work. There are 100 additional cases pending. Nearly every dispute that arises now is turned over to the federal trouble-fixers as a matter of course.

The basis of adjustment in every instance is one that takes into account three factors, all about equally important: The rights of the employees, the rights of the employers and the rights of the nation. It is war requirements that have given the impetus to this peaceful and sensible process of settling industrial disputes. But the process works just as well, and is almost as much needed in peace as in war.

It is appropriate that while we are fighting to make international warfare impossible hereafter, we should be putting our pacific ideals into effect for the avoidance of industrial warfare. Who will ever want to return to the old, violent, wasteful strike and lockout method?

STETTER'S FOR GROCERIES AND CROCKERY

Hoosier's Council of Kitchen Scientists

Mrs. Christine Frederick, noted Household Efficiency authority, head of Applecroft Experiment Station, New York.
Miss Alice Bradley, Principal of Miss Farmer's School of Cookery, Massachusetts.
Mrs. Janet M. Hill, Principal of the Summer School of Cookery, New Hampshire; Editor and Author.
Mrs. Nellie Kedzie Jones, Household Consultant, Wisconsin.
Mrs. Alice R. Dresser, Consultant of Household Administration, Massachusetts.
Miss Fay Kellogg, a prominent New York Architect.
Mrs. Frank Ambler Pattison, Domestic Efficiency Engineer, New Jersey.
Mrs. H. M. Dunlap, Domestic Science Expert, Illinois.

Each Hoosier expert is a leader in her field. All are capable. All are noted. In practical kitchen experiments they discover many labor saving "short-cuts." Then we build the inventions of some into Hoosier Cabinets. Others, through us, give expert advice to women who buy the Hoosier. So the actual presence of these specialists in your kitchen is not necessary. By having the Hoosier, you have the effect of their hands and brains at your side.

HOW HOOSIER HELPS YOU

It sifts your flour four times faster than old ways by giving you the patented SHAKER SIFTER. It makes flour light and fluffy, and does not grind dirt through the sieve. It saves you miles of steps by arranging places for 400 articles WITHIN ARM'S REACH! The most used articles are nearest. You sit and work in comfort. You reach instead of walk. One brainy woman, through her patented Food Guide, answers each day that old perplexing question, "What shall we have for dinner?" In 40 work-reducing ways, the Hoosier saves you toil and energy and time. And bear in mind with all these extra features the Hoosier is priced no higher than ordinary. None can surpass its lifetime standard of construction. More than a million Hoosiers are in daily use. We know of none that ever wore out.

WILL YOU ACCEPT THIS OFFER?

You must confess that you would like to have this cabinet. Then what excuse can exist to prevent you? Certainly not the price—Hoosier prices are low, due to enormous output. Certainly not terms—you can pay as convenient. More than that, we let you try the Hoosier. Make a small payment and we will deliver it.
