These HYATT BEARINGS Hold the World's Endurance Record

HERE THEY ARE—the original "Hyatt Roller" bearings, dripping with grease—just as they were taken from the "Hyatt Roller" at the end of its long grinding circuit of the country.

272,962 miles is now the official record of this car—a greater proved distance than any other car has ever gone.

When these bearings were photographed it was the first time they had been in the world's longest-distance vehicle since its journey "Around the U. S. A."

Yet this original set of Hyatt bearings is still serviceable. Laboratory examination shows an average wear of only one-thousandth of an inch (.001")—a wear perceptible only to microscope and microscope—not enough to interfere with the good service they have given and will continue to give when returned to their positions in the car.

In view of their past—nine years strenuous service covering 261,800 miles—their latest 11,163 mile performance is all the more remarkable.

They have surmounted all the toughest conditions of touring—gumbo roads, mountain grades, desert sands—and have finished on schedule time.

This test gives you a definite indication of the enduring, quiet, care-free service you can expect from your Hyatt Roller Bearings.

Thanksgiving

We plough the fields and scatter the good seed on the ground. But it is fed and watered by God's almighty hand. He sends the snow in Winter and warmth to swell the grain. The sunshine and the breeze and soft refreshing rain.

All good gifts around us
Are sent from Heav'n above;
Then thank the Lord
For all His Love.

—M. CLAUDIUS, Trans. by Jane M. Campbell

HAMILTONS

Thanksgiving

The past year has brought us into war—yet, we can be thankful that to us has come the privilege of helping "to make the world safe for Democracy."

We can be thankful, as we look back into the past, that we have for years enjoyed liberties that have been denied other peoples. We can be thankful that this country—"to the last man, to the last dollar"—has awakened to a full realization of the dangers that lie overseas, plotting our commercial, civic and social ruin.

We can be thankful that God has provided generously of the products of the field, forest and mine etc we may successfully undertake the gigantic task that is ahead.
