MAZOLA

the *vegetable* oil from corn which gives the *best* results in general cooking—at less cost

THE housewife has found that Mazola—the pure oil from corn—*is even better* than the old cooking mediums for deep frying, sautéing and shortening.

And *more economical.*

Mazola does not transmit taste or odor from one food to another—can be used over and over again.

A recent demonstration showed that the same tinful of Mazola could be used *eighteen different times* for deep frying.

Since it is a vegetable oil, it enables you to save butter, lard and suet, as requested by the Food Administrator.

And next time you want an especially delicious salad dressing, try Mazola.

Mazola comes in pint, quart, half-gallon and gallon tins—buy the large size for greatest economy. Also ask your grocer for the free Mazola Book of Recipes, or write us direct.

Your money refunded if Mazola does not give entire satisfaction.
