"DON'TS" FOR POILU WHILE IN PARIS

PARIS, Dec. 10.—(By Mail)—The "Tord-Boyan" is one of the many humorous papers published within sound of the German guns. Its title translated into English would read, "Eplut-a-gut." Among various useful information, it has drawn up a list of "don'ts" for the Poilu coming to Paris on leave. Here are a few of them:

"When dining out in polite company don't shout at the family butler, 'Spill the juice this way.'"

"When the roast is being served, don't ask your hosts 'How often do you get your monkey rations?' (The poilu calls his meat 'Singe-Monkey.')"

"Don't turn your plate upside down, to prepare for the cheese."

"Don't start eating sausage in the omnibus."

"Don't rush across the street to get under cover."

"Don't start feeling yourself when you hear a tire burst."

"Don't put on your gasmask when going into the subway."

"When visiting an apartment, don't ask whether there are several outlets."

"Don't look for communication trenches on the Place de la Concorde."

Songs of the Sammies

By J. W. Pegler, United Press Staff Staff Correspondent

AMERICAN HEADQUARTERS France, Dec. 15.—(By Mail)—If there isn't another warm place in town, there'll be a red hot fire all winter in the little stove in the marine dentist's office.

He began figuring on a fuel supply way early in the fall.

People thought him eccentric when he insisted that every marine who came to him for relief from a tooth-ache must bring along a tree-limb or empty packing case. Every morning you'd see a line of them—kids with swollen jaws, plowing through the mud to the dentist's, carrying a block of wood.

That wood accumulated. Now he has enough to last until the middle of March and it's still coming with every patient.

BELGIAN EMBASSY IS BUSY WAR-TIME PLACE

WASHINGTON, Jan. 9.—The Legation without a country. That's what the modest red brick home of the Belgian minister, E. de Cartier de Marchienne, E. E. and M. P., is called by Washington diplomats.

But while the half score of diplomatic officials that look after the interests of the remaining subjects of King Albert's plucky little kingdom may be painfully aware of their fallen estate, they are not shedding any unnecessary tears over what "might have been."

Busily preparing for a better day after the war—when Belgium shall be restored—de Marchienne and his compatriots are devoting their energies towards sustaining the spark of national entity that still smolders on the narrow strip of Lower Flanders.

Besides attending to the immense

Belgian Relief work being carried on in America, the legation officials find time to distribute no small amount of "anti-German propaganda." And if any entente power is able to testify on the evils of "Kulturism" it is the Belgians.

"Showing up" Kaiserism in all its "glory" is their self appointed task and they are not shirking on the job.

THROWING YOUR WORK AWAY

It is a needless and extravagant waste to throw away your treadworn and rutworn tires after getting only 3,000 to 4,000 miles of service out of them.

Like many other motorists you may have discarded hundreds of dollars worth of tires, but within the past year, tire experts have found a way to put an end to this enormous waste, and you are entitled to your share of the benefits.

Engineers of world-wide reputation and over a hundred thousand practical hard-headed "show me" American motorists have put their approval on

GATES HALF-SOLE TIRES

From an efficiency and money-saving standpoint Gates Half-Sole Tires represent to the motorist—the man who pays the tire bills—the most important development in tires since pneumatics were invented.

Get 5,000 Miles More

The tires on your car that are beginning to show wear after only 3,000 to 5,000 miles can be made better than they were when new. Your tire comes into our plant, worn and scarred from service, and we deliver it back to you—the same tire—made oversize and with a brand new, non-skid tread of fresh rubber. Not a square inch of your old tire will be in sight, and you will not be able to tell it from a new tire.

Every Gates Half-Sole Tire carries a written guarantee for Not Less than 3,500 Miles of Service Without a Puncture. You cannot get this kind of guaranteed service from any new tire without paying from two to three times the price of a Gates Half-Sole.

Don't Throw Away Another Worn Tire

Find out first about Gates Half Soles. If you are a car owner it will not take you five minutes to see and understand for yourself a process that seems almost like magic. You will be interested. We are ready to show you and we will prove every statement we have made.
