CONGRESS URGED TO LIMIT WAR TIME USE OF AUTOS

WASHINGTON, Jan. 16.—Congress may take drastic steps to restrict the use of motor cars during the war to conserve oil.

Senator Kenyon, member of the committee investigating fuel, declared the use of pleasure cars during the war should not be allowed. Great Britain has found it cannot keep its motor cars going and at the same time fill the oil needs of its navy, he said, adding that, unlike the condition in this country, automobiles are never seen in front of theatres in London and other cities.

BAKERS HAVE GOOD RECORD

Much has been said in criticism of the fact that bread prices have not declined with the small reduction in the price of flour and other ingredients and costs entering into the production of bread; but they are made from a one-sided viewpoint, in which entire sight has been lost of the conditions which have contributed to the advance in price in bread, according to the Corby Magazine, which gives facts and figures to substantiate the statement.

WHITE MICE HELP TO WIN THE WAR

WASHINGTON, Jan. 16.—If you have a white mouse in your home the army can use him. He is needed for pneumonia tests at army camps, and is useful in the trenches to detect gas attacks.

The war department can't get enough of these rodents for pneumonia tests alone—the disease that has made the greatest inroads of any in the training camps. The test is made by injecting saliva in the mouse's ear and it reacts immediately if a patient has been stricken by the pneumonia germ.

Mr. Hoover asks you to save butter, lard, suet. Mazola is a pure, vegetable oil for deep frying, sautéing, shortening—wonderfully economical.

MAZOLA

With the Nation-wide movement to save animal fats the housewife is confronted with a serious problem—if she would continue to serve fried foods.

Thousands of American homes have found the answer in Mazola, the pure cooking and salad oil from corn.

Because Mazola is a vegetable oil—and because a thorough test on the part of housewives has proven that Mazola is more practical, more economical than the old cooking mediums.

It makes fried foods digestible—and the great big factor for economy in Mazola is that it can be used over and over again—does not transmit taste or odor from one food to another.

A recent demonstration showed that the same tinful of Mazola could be used eighteen successive times for deep frying! Mazola is fine for salad dressings, too.

Get Mazola from your grocer in pint, quart, half-gallon or gallon tins. The large sizes give greatest economy. Also ask for the free Mazola Book of Recipes—or write us direct.

Your money refunded if Mazola does not give entire satisfaction.
