ELSIE FERGUSON, NOTED STAGE STAR, HERE TONIGHT

At the Globe theatre commencing tonight, Elsie Ferguson, the most beautiful artist of the American drama, makes her motion picture debut in "Barbary Sheep," for Artrairt Pictures. One of the most prominent exponentes of the true dramatic art, Miss Ferguson brings to the screen a rare personality and adds greatly to its potency as a high-class amusement. Miss Ferguson's career on the stage started at the bottom. Through characteristic persistency and hard work she has become one of the most popular actresses of the world. Her characterizations in such well known theatrical hits as "Shirley Kays," "Such a Little Queen," "Orcaut," and "Margaret Schiller" won her particular prominence among the hearts of American theatregoers. In "Barbary Sheep," adapted from Robert Lytton's most popular book since "The Garden of Allah," Miss Ferguson is given a vehicle that not only is particularly adapted to her capabilities, but one that offers her a most lavishly artistic background. Under the direction of Maurice Tourneur, the well known French producer, some of the most elaborate sets ever staged for a photoplay are presented in novel display. The romantic story of Algeria, which tells of the infatuation of an English noblewoman for a dark-skinned army officer, as told on the screen, it is readily felt, will achieve greater popularity than even the book experienced. Among the many interesting features displayed by this production are the views of life in Algeria setting forth the mystery, rascination and strange atmosphere of the desert. Charged with the heat, passion and swift action that befit a daring romance of this country, "Barbary Sheep" promises to attract and hold the immediate attention of the audience from beginning to end.

make her a visit.

Bailey Making Good—
To enlist as a private in the United States marine corps and without any previous military training to be promoted first to the rank of corporal and later to that of sergeant has been the experience of Ed Bailey, formerly of the law firm of Weatherford & Weatherford of this city. It has now been learned indirectly that Ed has been recommended for the first of "tigers" training camp of the marine corps and his friends predict that he will soon have his commission as a commissioned officer.

Mrs. Marsden Here—
Mrs. Maude Marsden and two children arrived this week from Washington, D. C., and will make an extended visit at the home of Mrs. Marsden's parents, Judge and Mrs. H. H. Hewitt. Rev. Marsden has enlisted as a chaplain in the United States army and it is believed by his wife that he is already en route to France.

Cold at Alma—
According to a letter received by a friend in this city Elliott Crooks, son of H. M. Crooks, formerly president of Albany college, the people

of Alma and vicinity are suffering seriously from the coal shortage in the Middle West. It was 18 below zero on the day he wrote and the snowdrifts were piled nine feet high in the front yard, with only fuel enough to heat two rooms in the house.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, wastes and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.
Says we will both look and feel clean, sweet and fresh and avoid illness.
