ITALIAN PRUNE TREES

In all grades and a complete line of Fruit, Nut and Ornamental Trees, Shrubs, Roses, etc., for this season's planting. Existing conditions insure a continuation of the high prices paid for Prunes and all Fruit products the past year. Over one and a half million pounds of Northwest Prunes sold to the Government in one order. What will bring you better results, and at the same time aid in the food supply, than an orchard planted on suitable ground and well cared for? Growing our own trees we can furnish you good stock at the right price.

Move to St. Helens—

W. H. Goings, who has been work-

ing in the mill at St. Helens for some time, returned there this morning, accompanied by his wife and family, where they will make their home.

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using
Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value their hair, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.
