Belgium was the quickest way to France. Therefore, Belgium must be sacrificed, regardless of Germany's previous guarantee of Belgian neutrality for, declared the Prussian machine, a treaty is only "a scrap of paper," and "necessity knows no law."

For more than four years the United States has been represented at the seat of the Belgian government by Brand Whitlock as minister. Mr. Whitlock became famous in this country during the four terms that he served as mayor of Toledo, Ohio, when his broad understanding of civic problems was evidenced in his writings.

No more suitable man could have occupied the Belgian legation during this period than Brand Whitlock and his account of Belgium's tragic experience which will be published serially in The Oregon Sunday Journal beginning February 17, is the biggest story that the war has produced.
