HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils
Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more yawning, sniffling, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

Uncle Eben.
"Talk is cheap," said Uncle Eben, "foh de manufacturer. But it may be expensive foh de man dat gives up valuable time listenin' to it."

Three Kinds of Sweet Odors.
Sweet odors are of three kinds—the floral, the aromatic and the balsamic. The first group includes all those derived from sweet-smelling flowers and plants; the second, those derived from musks and resins; the third, those derived from leaves and gums. The otto, or essential oil of perfume, is obtained in three several ways—distillation, maceration and enfleurage.

OLD METHOD OF TRANSPORT

Raft as Used in America Today Has Its Counterpart in Every Country in the World.

"The raft has been used for centuries for carrying various cargoes," writes Day Allen Willey in St. Nicholas. "It carried Egyptian cotton on the Nile; it is in service on the Congo river in Africa and the Ganges in India; but the raft which is its own cargo is that composed of logs—a method of water transportation that originated in Nova Scotia a half century ago.

"Tree trunks cut from Nova Scotia forests were moved on wooden rollers to one of the barks, where the logs were piled in layers and bound together with twisted wire rope. The raft was to be taken to a lumber mill on New York harbor, where the logs were to be cut into timber for building purposes. To haul the raft while on the sea, one end of a heavy wire rope was fastened to its bow, the other was secured to the rear deck of a steam tugboat. It started on its ocean journey, but never reached its destination, for a gale of wind sprang up, the towing rope parted, and the raft drifted out to sea. Later, some of the logs were found washed ashore on the Norwegian coast.

"In the Northwest the transportation of lumber in rafts is very extensive. They are of enormous dimensions, in shape closely resembling a cigar, having its greatest number at the middle and tapering to a point at both ends. While these rafts are of varying sizes, the smallest usually contains at least five thousand pieces of timber, ranging from 80 to 110 feet in length and from two to nearly five feet in diameter at the butt.

"Consequently, some of the rafts made in this peculiar fashion are nearly as long as the largest transatlantic liners, measuring no less than 650 feet from end to end."

Won't Go.

"This thing can't go on!" exclaimed the shoe clerk, vainly trying to get a number two shoe on a number four foot.—Boston Transcript.

DRINK MORE WATER IF KIDNEYS BOTHER

Eat less meat and take Salts for Backache or Bladder trouble—Neutralize acids.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Effect of War on Trade.

It would be impossible to give in detail the effect of the European war on American trade, but partial statements show the approximate effect on some branches of trade. Thus it appears that during the first 20 months of war our exports of articles used expressly for war purposes amounted to \$1,062,582,249. The smallest shipments were in the opening month of the war, August, 1914, when such exports amounted to only \$8,551,011 and increased almost steadily up to March, 1916, when the total was \$114,320,426. For the 20 months the exports of explosives amounted to \$104,159,515; gunpowder, \$104,005,785; cartridges, \$40,308,017; dynamite, \$3,211,073; commercial automobiles, \$82,967,125; mules, \$30,021,501; horses, \$125,241,293; airplanes, \$7,401,707; firearms, \$29,140,381; miscellaneous iron and steel, including empty shells, \$111,603,310; rubber, including auto tires, \$38,838,768; barbed and plain wire, \$44,485,385. According to statistics of the United States department of commerce, more than three-quarters of the total export trade of the United States in 1916 went to the allied nations of Europe, and this including only war exports, and not provisions or foodstuffs.

Shark Fishing an Industry.

Shark fishing has evolved from a sport to an organized industry in the Pacific waters off the southwestern coast. The skin of various species of the fish when tanned forms a tough, durable leather that is in considerable demand, and the oil that is extracted from the carcass likewise has commercial value. Of late a Japanese syndicate has undertaken the exploitation of this long-neglected field and, as a result, large numbers of sharks are being captured. The mottled skins of the tiger sharks are being made into slippers, belts, gloves and other articles, while those of the great blue and basking sharks, which are especially thick and strong, are used for purposes that demand long-lived material.—Popular Mechanics Magazine.

What She Forgot.

Miss Decorous had made a special study of biblical history, and she addressed the Sunday school class thusly:

"Now, children, I have told you all I can concerning the nations which were driven out by the Israelites. They were the Hittites, the Hittites, the Jebusites, the Perizzites, the Girgashites and, let me see—yes, the Amorites. Can you remember them all, children? Now you look puzzled, Rosie. Have you any questions?"

"No, teacher," came the shy reply, "except that you haven't told us about the fleas-bites!"—Pearson's Weekly.

Optimistic Thought.

Honor is the recompense of those who do right without seeking recompense.

Bright, Snappy
Styles
FOR LATE WINTER AND
EARLY SPRING WEAR

WE HAVE SOLVED the happy combination of bright, snappy style and real weather proof service in the several handsome shoe models in our Early Spring Shoe Stock.

Every bit of feminine beauty and daintiness that is so well expected of women's footwear has been retained in the making of these shoes; and they have the added attraction of being really weather proof.

Illustrated above is one of the more popular of these service shoes. Dark russet shade of tan calf or in pearl elk, high top, dressy narrow toe, low military heel, stout waterproof Neolin sole with rubber heels. Price \$5.50 in tan \$6 in pearl. Many other neat styles in black tan and khaki, in prices from \$3.85 to \$7.50

One Hundred and Seventy-Five

In our window we have a map of the Good Old U. S. A. showing you the rapid growth from one humble store to one hundred and 75. Mr. J. C. Penney conceived the idea of a chain system whereby he could let merchandise in large quantities direct from the manufacturer, saving the middleman's profit which the store merchant is forced to add to his selling price in the face of the above. We deliver no goods, in fact, we eliminate all unnecessary overhead expenses, which means that we can save you from 25 to 33 1-3 per cent on your each and every purchase. It's in the Buying.

New shipment women's silk petticoats, in all the latest designs and colorings \$2.25, \$2.98, \$3.49, \$3.98
Women's Spring Suits \$12.50, \$14.75, \$16.50, \$18.50, \$22.50
Women's spring coats \$9.90, \$12.50, \$14.75, \$16.50

Now Is the Time

—to BUY GARDEN SEED. Make up your seed order NOW and send it to US. Our stock is CLEAN, FRESH, FERTILE and COMPLETE.

All seed is handled in bulk and it is to your advantage to buy it in this way. We invite you to compare the amount of seed contained in the five-cent packages usually sold in grocery stores, with five cents' worth of the bulk seed of the same variety purchased at our store. Then, YOU HAVE NO WAY OF KNOWING HOW OLD THE PACKET SEED IS.

Remember: Although we have an excellent Pure Seed Law in Oregon, it gives you no protection whatever when you buy of stores handling packet seed, as the law applies only to packages of one pound or more. BUY SEED AT A SEED STORE
