Halsey Men Here—

Emory Herson and G. Sweet of Halsey were in Albany this morning on their way to Portland on business.

Went to Corvallis—

Mrs. F. H. Arnold went to Corvallis this morning to spend the week-end with her daughter, Mrs. Arnold Pittman.

DOUGLAS FAIRBANKS IN TRIANGLE PLAY "THE LAMB."

At the Globe Sunday and Monday.

To Visit in Portland—

Mrs. Morris Senders and son, and Mrs. Adolph Senders, went to Portland this morning to spend the week-end. The former will visit her mother, Mrs. S. Cohen, and the latter will visit her brother.

Went to Eugene—

Thomas Kirkwood went to Eugene yesterday to attend the Christian Endeavor convention.

Detroit Teacher Here—

Miss Jessie Singleton, who is teaching school near Detroit, spent last night in Albany visiting Miss Minerva Spear. She went to Portland this morning to spend the week-end with her parents.

DRINK HOT WATER IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not impurities into the body.

MONEY TO WIN WAR

How Americans Can Defeat Blood-Crazed Kaiser.

Small Contributions From All Who Love Liberty and Appreciate Its Blessings Will Save World From Grave Danger.

Many are familiar with the fable that appeared in the old school readers about the king who offered a fortune and the hand of his daughter to the man who could tell him a story that would last forever in the telling, with the stipulation, however, that, in case the story came to an end, the person who failed to complete it was to lose his head by the sword.

A number of adventurous spirits lost their heads in the attempt to keep a serial going forever to amuse the eccentric monarch, but one young man finally won the fortune and the daughter by wearing out the very soul of the king with the story about the locusts carrying off the corn. "And then another locust came and carried off another grain of corn," etc., etc., until the king decided he had had enough of the story.

America—in fact, the whole world, is dealing with an "eccentric" monarch today. This monarch wants the impossible, and everyone who refuses to give it to him must lose his head. There is one way to deliver the peoples of the world from this menace.

Kaiser Wilhelm can be worn out, if he cannot be crushed by one tremendous blow. And the government at Washington has pointed out the way.

Money will defeat the Kaiser. Small savings, like the locusts, coming along from 110,000,000 American citizens, will wear out the soul of the war-mad monarch. American money can wear out any army in the world, because there is a great deal of American money and there are many Americans who have it. Just a mere matter of a quarter a day from every wage earner in the United States would mean billions of dollars every year to buy guns and food for soldiers, and ships to carry them across the Atlantic to defeat the sinister purposes of the Kaiser and his crew.

A quarter, like the grain of corn, is not much in itself, but millions of quarters every day mean victory for righteousness and humanity.

Going Away Off.

Sloanie Williams, son of Thomas A. Williams, who recently removed to Montgomery, Ala., from Franklin, and the son of Capt. E. B. Chenoweth, former corner of Johnson county, who enlisted in the medical corps at Ft. Harrison, and was sent to Honolulu, Hawaiian Islands, for base hospital training, were playing.

Sloanie started an argument by saying "My papa and mamma and I are going away off."

Young Chenoweth replied: "So are my papa and mamma and me."

Sloanie took the matter in hand and announced: "Well, I bet we are going the farthest."

Chenoweth immediately objected, and the argument waged furiously. Finally young Chenoweth asked young Williams: "Well, where are you going, anyhow?"

Williams was unable to answer, and the physician's son quick to show his superior knowledge, answered: "Well, wherever it is, I bet it isn't as far as Halleujah, that's where we're going to move to."—Indianapolis News.

Soap for Wounds.

Common yellow soap, the kind used by housewives in washing clothes and dishes, has been found to be a wonderful cure for wounds in French hospitals and its use has spread to the British medical stations. A solution is made from a cake and injected into soldiers' wounds, even in the latest instances into the deepest bullet holes, where it has proved itself to be a superior antiseptic to hydrogen peroxide and most other germ killers, and in addition a strangely effective healer of torn tissues.

Wounds treated with soap need fewer dressings and lessen pain far more than do wounds treated with other antiseptics. These facts greatly expedite the work of the surgeons, who can handle more men than when using other solutions.

What the Girl Said.

Being in charge of the complaint department at the local postoffice, I had a rather amusing incident occur a few days ago. The blank used in filing a complaint required answers to about a dozen questions, as, for example, date of mailing, contents, nature of complaint, as loss, damage or rifling. A young lady came to the window and explained that she was to receive a parcel containing medicine from an out-of-town doctor, and same was long overdue, according to advices regarding shipment received from the doctor. So I proceeded to have her answer the several questions on the blank mentioned. When I read the questions, nature of complaint, she replied: "Stomach trouble."—Chicago Herald.

Perfect Explanation.

Little Bobby—What does "knows no bounds" mean, dad? Explain it to me.

Dad (buried in newspaper)—Kangaroo with rheumatism.

More Careful.

"The German submarines have taken again to sinking neutral ships." "Yes, they know the neutrals haven't any guns."

CITY NEWS

ELECTRICITY America's Ally

Have you stopped to think what Electricity means to America in this war?

It turns the wheels of nearly a million factories; lightens labor in ten million homes, brings ease and comfort into the daily lives of a hundred million people. In the pursuits of peace it is man's ally; but when war appears it becomes a veritable brother to Mars.

In helping to carry on the great war the Electric industry is "doing its bit." Tireless, day in and day out, the Electrical men of this nation are marshaling the forces of heat, light and power for your greater efficiency and benefit.

We are doing our utmost to cut out waste and make our service as efficient as possible for your use and the nation's.

Whatever your part in this great cause, remember your own personal responsibility. Remember Electricity. Make the best use of this greatest of all helps.

Advertising Momentum

Many institutions expect advertising to perform miracles, to rehabilitate a depleted list of customers in a few weeks or harvest a golden crop of dollars. Advertising is not based on wizardry any more than on quackery. Its results are cumulative.

There are no miracles in advertising, but money so invested, if invested properly and the opportunities thus created properly followed, will yield handsome returns.

An inquiry from a prospect who has never transacted business with your organization is the most vital and the most potent factor in the success of your business. That inquiry represents growth, development new business, and new inquiries are worth attention, study and care—the full measure of your service. The aggressive and consistent advertiser whose educational publicity attracts, will find that the business has acquired a new momentum, the effect of which will be apparent in succeeding years.

Cameron's Oregon Silo Once Built---Stays Built

The only Wooden-Stave Silo that automatically adjusts itself to Expansion and Contraction.

Table of Prices, Sizes and Feeding Capacity

Size	Prices	capacity in tons	No. cows 180 days	acres corn
8x24	\$117	23	6	3
8x30	\$142	33	10	4
8x36	\$167	38	13	4 1/2
10x24	\$142	40	11	4 1/2
10x30	\$173	47	14	5 1/2
10x36	\$203	60	16	6 1/2
12x24	\$167	55	15	6
12x30	\$203	80	22	9
12x36	\$234	105	26	10

CAMERON'S OREGON SILO

Is a Common Sense Article

There are special features of its construction that avoid the defects of other silos.

Cameron's Oregon Silo is built like a barrel—the hoops go completely around. The hoops are flat, do not stick out or in, and have springs to take up slack for contraction and lengthen for expansion.

Automatic expansion and contraction are provided for in the roof construction.

The absence of complicated door fixtures, coupled with the rigid door frame construction, made of 4x4 jambs, machined, flush with staves inside, allows a smooth surface, eliminating all projecting obstructions to the setting of the silage, a very common fault in other silos.

We also built Water Supply Tanks and Stock Tanks. Get our prices.
