

A little more of this back practice, and he'll be ready to sit down and enjoy a little more of the Real Gravelly chewing plug.

Who is Going to Send Him another pouch of Real GRAVELLY Chewing Plug

Real Gravelly Plug is the tobacco to send the Boy—not ordinary plug loaded up with sweetening, but condensed quality—with the good Gravelly taste that satisfies and comforts and lasts a long while.

Give any man a chew of Real Gravelly Plug, and he will tell you that's the kind to send. Send the best. Ordinary plug is false economy. It costs less per week to chew Real Gravelly, because a small chew of it lasts a long while.

If you smoke a pipe, slice Gravelly with your knife and add a little to your smoking tobacco. It will give flavor—improve your smoke.

SEND YOUR FRIEND IN THE U. S. SERVICE A POUCH OF GRAVELLY

Dealers all around here carry it in 10c. pouches. A 3c. stamp will put it into his hands in any Training Camp or Section of the U. S. A. Even "over there" a 3c. stamp will take it to him. Your dealer will supply envelope and give you official directions how to address it.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, biliousness, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Over There and Over Here

Over there on the fighting front, and behind the lines, the telephone is as indispensable as it is here at home.

Over there troops are moved and battles fought, the movements of the enemy reported and the supplies and munitions brought up by means of telephone communication.

Over here more than 12,000 long-line operators have been specially trained for Government service, and the Government at Washington keeps in close touch with every phase of war preparation and directs the work of a vast number of industries upon which the success of our armies will depend.

Over there and over here the great war captains and the captains of industry depend upon telephone communication to carry out their plans successfully.

The Bell System is devoting all its great resources to the end that the work of preparing our armies for battle and of sustaining them in the field, shall go on systematically and efficiently so that over here and over there, there may be coordinated and sustained effort which alone will bring the final victory.

Advertising Momentum

Many institutions expect advertising to perform miracles, to rehabilitate a depleted list of customers in a few weeks or harvest a golden crop of dollars. Advertising is not based on wizardry any more than on quackery. Its results are cumulative.

There are no miracles in advertising, but money so invested, if invested properly and the opportunities thus created properly followed, will yield handsome returns.

An inquiry from a prospect who has never transacted business with your organization is the most vital and the most potent factor in the success of your business. That inquiry represents growth, development new business, and new inquiries are worth attention, study and care—the full measure of your service. The aggressive and consistent advertiser whose educational publicity attracts, will find that the business has acquired a new momentum, the effect of which will be apparent in succeeding years.
