

THREE BROTHERS MEET
AFTER YEAR'S SEPARATION

Mrs. H. Stilson, of Portland, formerly of this city, has received word from her sons Lowell, John and Jasper, that the three met in San Francisco recently and had the first reunion that they had had for a year and a half. John and Lowell joined Fifth Co., C. A. C., and were transferred to Battery E, 65th division.

SALTS IF BACKACHE
AND KIDNEYS HURT

Drink lots of water and stop eating meat for a while if your bladder troubles you.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and clog. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach, sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scale and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delicious, after-noon lithia-water drink.

MAE MARSH TONIGHT IN
"THE CINDERELLA MAN"

Mae Marsh, the quaint star of the screen, will appear in her third Goldwyn picture, "The Cinderella Man," from Oliver Morosco's famous stage success by Edward Childs Carpenter, at the Rolfe Theatre tonight and Saturday.

The wistful appeal of Mae Marsh, known wherever motion pictures are shown, finds remarkable opportunity in the strong human interest situations of Mr. Carpenter's moving story. Ever the "girl of a thousand faces," it is another Mae Marsh who awakens heart throbs in "The Cinderella Man," than the Mae Marsh who is delighting the nation in her two preceding Goldwyn production, Margaret Mayo's classic of the big top, "Folly of the Circus," and "Sunshine Alley," from the story by Mary Rider. The amazing versatility of Miss Marsh which changes her characterizations so radically from play to play, makes "The Cinderella Man" quite as refreshing as anything she has ever done.

Edward Childs Carpenter, author of this latest Mae Marsh vehicle, is also the author of "The Pipes of Pan" and of "The Three Bears," both current Broadway successes. "The Cinderella Man," in stage form was one of the biggest hits of the New York season during its long run.

Charlie Chaplin will also be seen in "The Vagabond." The Rolfe will continue the policy of running a continuous show Saturday afternoons, beginning at 1 o'clock.

ANN PENNINGTON DISPORTS
IN "THE ANTICS OF ANN"

In a statement which he made lately in regard to Ann Pennington's newest Paramount picture, director Edward Dillon said: "The picture will give Miss Pennington opportunities to wear some stunning gowns and an especially chic bathing costume in the swimming scenes. She will also have a chance to display her prowess at high diving and dancing. There is a big comedy element, and from what I have seen of her work so far, I believe Miss Pennington will surprise even those who have admired her previous work on the screen."

Ann Pennington, noted dancer of the Ziegfield Follies, will appear in "The Antics of Ann" at the Globe Theatre tonight.

Her Narrow Escape.
One day, when Dorothy's mother was reading to the little girl, she came to the word "invitation." She explained its meaning briefly, but thought the child would forget it. Consequently she was much surprised when, a few days later, Dorothy came running in, exclaiming excitedly: "Oh, mamma, it's a good thing for me there's a law of gravitation, or I'd have tumbled head over heels into heaven just now, when I fell off the ladder."

Mrs. Art Nichols of Sidney was in town yesterday shopping.

Wind's Velocity.

It has been estimated that a gentle wind travels about five miles per hour, a high wind about 30 to 45 miles per hour, and a great hurricane 80 to 100 miles per hour. The velocity of the earth on its own axis exceeds, it is believed, 1,000 miles an hour. The velocity of the earth around the sun is calculated to be 66,000 miles per hour, and the velocity of the moon to be 2,273 miles per hour.

DEMOCRATS MAKE CLEAN
SWEEP IN NEW YORK

NEW YORK, March 8.—Democratic representatives were reelected in all four congressional districts of New York City where special elections were held to fill all vacancies caused by resignations.

While the election will not change the representation from New York, the four previous members who resigned having been democrats, it will increase the lineup in the house on the democratic side just four votes and overturn the present republican majority of one.

HASTENED RUSSIAN COLLAPSE

"We must not overlook the fact that Russia collapsed, not because of the Germans on her borders, but because she failed to organize and feed her own citizenship," the food administration announced.

"We must be warned that if we are to emerge victorious from this war we cannot risk the collapse of another of our associates in this war from this cause."

"Anybody that is looking for the collapse of the German people on the food question had better turn around and look at the moon, because the results will be the same. Germany is in no more danger of collapsing on that score than we are, if as much."

The knife, fork and spoon are the most powerful implements of war just now.

ELECTRICITY
America's Ally

Have you stopped to think what Electricity means to America in this war?

It turns the wheels of nearly a million factories; lightens labor in ten million homes, brings ease and comfort into the daily lives of a hundred million people. In the pursuits of peace it is man's ally; but when war appears it becomes a veritable brother to Mars.

In helping to carry on the great war the Electric industry is "doing its bit." Tireless, day in and day out, the Electrical men of this nation are marshaling the forces of heat, light and power for your greater efficiency and benefit.

We are doing our utmost to cut out waste and make our service as efficient as possible for your use and the nation's.

Whatever your part in this great cause, remember your own personal responsibility. Remember Electricity. Make the best use of this greatest of all helps.

Advertising Momentum

Many institutions expect advertising to perform miracles, to rehabilitate a depleted list of customers in a few weeks or harvest a golden crop of dollars. Advertising is not based on wizardry any more than on quackery. Its results are cumulative.

There are no miracles in advertising, but money so invested, if invested properly and the opportunities thus created properly followed, will yield handsome returns.

An inquiry from a prospect who has never transacted business with your organization is the most vital and the most potent factor in the success of your business. That inquiry represents growth, development, new business, —and new inquiries are worth attention, study and care—the full measure of your service. The aggressive and consistent advertiser whose educational publicity attracts, will find that the business has acquired a new momentum, the effect of which will be apparent in succeeding years.
