Perfect in every appointment was the attractive dinner given Thursday evening by the Sewing club girls in compliment to Mrs. Ralph Cronise at the Hotel Albany. In artistic arrangement a profusion of pink spring blossoms centered the table where places were arranged for the guests.

The guests included Mrs. Ralph Cronise, Miss Velma Davis, Miss Claire Tillman, Miss Vera Wilkins, Miss Stella Dorgan, Miss Louise Wieder, Miss Mae Tillman, Miss Volena Smith, and Miss Kate Stewart. After dinner the crowd formed a theatre party.

After next week Mr. and Mrs. Cronise will make their home in Grants Pass.

On Tuesday night the Pythian Sisters enjoyed a social time following their regular session. Old fashioned games and other diversions took up the evening hours.

Opening the season with probably the spring's first picnic, a group of college students crossed the Willamette Friday evening and with bonfires, games and other things characteristic of picnicking, spent a jolly evening.

Miss Wilma Junken charmingly presides as dinner hostess the former part of this week, when several young people spent the evening at her home. Music, games and other diversions filled the pleasant evening.

The Rebekahs gave a delightful hard-times social Friday evening. A large number were present at this enjoyable affair and spent the time in jollification.

At the home of Mrs. L. G. Lewelling at 525 West Twelfth street, the Acme Bridge club met for the last time this season. The members voted to spend their time in Red Cross work after this, and postpone all meetings for playing bridge until after the war. For this meeting Mrs. Earl Fisher, Mrs. Willard Marks and Mrs. H. W. Barker substituted for absent members. Bridge was the enjoyable diversion. An abundance of flowers added their charm to the room, the yellow color scheme being predominant.

An interesting meeting of the local chapter of P. E. O. Sisterhood was an event of Wednesday afternoon, Mrs.

W. H. Davis acting as hostess. Spring blossoms effectively adorned the rooms where the guests gathered to spend the social time. Mrs. G. H. Bennett, Mrs. J. R. Hulbert and Mrs. W. G. Lallach were initiated into the club as new members.

Mrs. Earl Melitash presided as hostess this week to the Thursday Study club. The paper of the afternoon was ably written and read by Mrs. J. J. Barrett. The enjoyable afternoon was taken up with music, knitting and fancywork as the pastimes.

At an unusually delightful afternoon spent by the Coterie club members, Mrs. Charles Curry was hostess on Wednesday afternoon. About the rooms of her home, violets and daffodils were artistically used in decoration. Knitting and conversation made the time pass pleasantly until a late hour, completed with refreshments of a Hooverized type were served.

Mrs. I. M. Doughton of Astoria, a former member, was present to spend the afternoon, and Mrs. O. D. Byers and Mrs. C. B. Davis were the additional guests.

Mrs. V. L. Calavan acted as hostess on Thursday afternoon to the Needlecraft club. Red Cross work took up most of the afternoon's time, a light lunch being later served by the hostess. Flowers of the season were used about the rooms in attractive decoration. Several additional guests came in to pass the afternoon.

A group of teachers formed a party Thursday and spent their time in Red Cross work at the Red Cross rooms. A supper at the Imperial was a feature of the evening.

Mrs. D. Bussard was one of the week's hostesses when she entertained the Artercraft club Tuesday afternoon. A profusion of pussywillows and spring flowers decked the rooms where the guests passed an enjoyable time.

On Thursday afternoon Mrs. Alvin Carnegie was hostess to the members of the New Idea club, when they met at her home. At this time the guests completed a Belgian baby's layette, which they had been working on. After a social time, dainty refreshments were served by the hostess. Mrs. John Carnegie was a complimented guest.

A cleverly planned affair was the annual congregational gathering on Wednesday evening of the United Presbyterian church. A supper was served, which on account of the weather, was strictly Hooverized.

The long tables where the guests were served, were beautifully laden with quantities of mixed flowers, hincinths, daffodils, violets and jonquills predominating. Nearly 150 guests were present for the social evening.

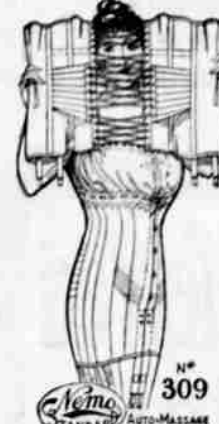

A prettily arranged luncheon was planned and given Tuesday by the girls of the high school domestic science class. The honor guests for this were the four principals of the schools and Mr. and Mrs. C. W. Boettcher.

HAMILTONS

Don't wait until you lose your youthful figure—

Select Your Nemo Now

It will keep you so well—your muscles strong, your organs in normal position, and your body correctly poised—that your figure will remain symmetrical. There is a good reason why a Nemo will do more for you than any other corset—it is more scientifically constructed.

For instance, Nemo No. 309 is a delightfully stylish corset and yet it has two most valuable health features—the Back-Resting device and Auto-Massage Straps—both inside features and "invisible." It will strengthen your back, improve your poise and reduce your figure. For plump figures of medium height. Low top; long skirt. Light but durable white cotton; sizes 20 to 30. A great value—\$3.75 to \$4.25.

Other Nemos are just as stylish and healthful. All of them are famous for durability.

Let us fit you soon in YOUR model.

A New Idea Nemo Brassiere

"FITS AS YOU FASTEN" Easy to hook (front or back) when side-lacings are open. Pull tape straps, and brassiere is instantly adjusted to your form—tight or loose, as you prefer.

A SPLENDID NOVELTY! VARIOUS MODELS, ALL SIZES—

\$1 and \$1.50

richer. The charmingly decorated table held on it suggestions of Easter.

Mr. Floyd Saffley was the inspiration for a surprise party on Wednesday night. Several guests came in to spend the jolly evening at his home.

Miss Florence Lawson entertained several of her girl friends on Friday evening. Several of the guests came "dressed in boys' clothes." A mock wedding and several other pastimes were enjoyed until a late hour when a delicious lunch was served.

Dr. D. M. Jones' 80th birthday anniversary of April 3, 1838, was celebrated at a dinner Wednesday. It was very enjoyable day for all that were present—about 20 relatives and friends constituting the number present.

BROKEN SPRINGS MAKE FINE TIRE TOOLS

Have you ever stopped on a country road, several miles from the nearest garage, to change a tire and find you had either lost or left your tire tool at home? Then you realized what an indispensable item of equipment the lowly tire tool is in fitting a clincher tire on a rim. Drivers of the B. F. Goodrich Rubber company tire testing cars have solved the problem of supply by transforming broken springs into tire tools.

It's a simple process. Here's how a home-made tire tool is made: touch up, with emery cloth, the thin end of a very old spring. The old springs are easily converted into tools, because of the thin end usually wearing into a very sharp point, thus necessitating but a slight application of the emery cloth.

"A broken spring makes an excellent tire tool for a clincher tire," said one of the Goodrich drivers, "and can be quickly made by anyone at no expense. We have found, in operating our fleets of test cars, that tire tools are misplaced or lost more than any other toolbox item. Since our mechanics discovered the 'spring tool' we always have an ample supply on hand."

What They Asked Him.

There is one man in town who is tired of hearing the name of a small car of popular make. His name is L. G. (Baron) Rothschild. It all happened like this: On Monday morning the baron, in his haste to get to the Jewett Inauguration, as some say, slipped on the sidewalk and broke a bone in his wrist and tore loose two ligaments in his right hand. He has since been carrying the hand around in a plaster cast. Since then, whether in the club or on the street, nine acquaintances out of ten asked him the question, "Were you cranking a—?" BEST IN THE LONG RUN

The Conquerors

FAIL The Conquerors of The Road. Had the tires that triumphed in the bitterest struggle ever staged between roads and tires, a conflict of 4,178,744 tire miles. Had Goodrich Tested Tires.

Hear the story of a good fight well won. One year ago Goodrich, challenging the roads of America to a test of strength, sent forth six Test Car Fleets to battle America's roads in every region of the country.

GOODRICH TESTED TIRES

The roads did their worst. East, west, north and south, as the Test Car Fleets whirled from state to state, the teeth of the road gnawed at Goodrich Tires.

But the tires conquered with phenomenal mileage that doubled Goodrich's pride. From that test covering millions of miles, the Test Car Fleets came back with a new tire standard, the TESTED of Goodrich Tested Tires.

Tested Tires mean certainty of service, proved service, and that means a lot to a tire user. It means long life in a tire, and dependability on the road, for no hidden weakness could conceal itself in that year long test of Goodrich's Test Car Fleets.

SILVERTOWN CORDS, and BLACK SAFETY TREADS, proved themselves masters of the road. The spiral-wrapped, cable-cord tire body, and the tough, close-clutch, cross-barred black safety tread defied the rough going.

Under light and heavy cars they proved themselves not for one car or one driver, or one road, but all cars, all drivers, all roads.

Reap the benefits of this nation-wide victory of Goodrich Tires, the sure mileage and dependability of a proven tire service, by demanding tires that won the title, "America's Tested Tires."
