THE UNIVERSAL CAR

More and more the enclosed motor car grows strong in popular favor. It's natural, especially with Ford cars, which are busy running every day of the year—winter and summer the Ford serves faithfully and profitably. So for a real, genuine family car there is nothing equal to the Ford Sedan at \$695 f. o. b. Detroit. Seats five. Large doors, plate glass sliding windows, silk curtains, deeply upholstered seats, latest type ventilating windshield—a car of refined luxury with the everlastingly reliable Ford chassis.

Activities along the line of patriotic work have taken a prominent place in this week's events and have lately been crowding social affairs into a smaller scale. Many people thronged the armory Wednesday night to hear the interesting and entertaining talk given by Colonel Leader. He has won a host of admirers in many of the surrounding towns where he has been to speak.

Colonel Leader is at the head of the military training at the University of Oregon.

To lead the calendar of social events for this week the dance planned for tonight as a benefit for the Red Cross and in the charge of the finance promotion committee, is a prominent affair. Excellent music will be rendered by

Helsters and the Rolfe orchestras combined, and a charming feature will be the several vocal solos given during the dances by Mrs. Harry B. Cusick and Mrs. Charles B. Essex.

At a late hour light refreshments will be served.

At the home of Miss Irene Snyder on Tuesday evening, a crowd of girls enjoyed a "Little Girls" party. In appropriate garb the guests came to spend the evening in games and jollification. A lunch rounded out the evening's pleasures. The Misses Harriet Phipps and Bessie Potter, of Oregon City, were the honor guests for the evening.

Another jolly affair of this week was the covered dish supper given by a crowd of girls at the home of Miss Ardy's Doughton. The prettily decked table was centered with a bouquet of spring flowers, daffodils predominating.

I now have a good appetite, while before I was nearly starved."

BEST IN THE LONG RUN

A Message from America's Roads

SECURE certainty of service in Tested Tires. They give sure service because it is proven service. Their endurance and mileage have been proved in the one way to assure mileage to the motorist, on the car on the road.

Hearken to that 1918 message, the roads of America send American motorists. Last year Goodrich, launching six Test Car Fleets in six widely different regions of our country, took Goodrich Tires, and with light and heavy cars mauled them over sand, gravel and rock roads of plains, deserts and mountains, to try out—

GOODRICH TESTED TIRES

What those tires endured doubled Goodrich's pride in its tires. They fought America's roads through 4,178,744 tire miles. They conquered the roads of America in that phenomenal mileage, those BLACK SAFETY TREADS and SILVERTOWN CORDS.

Let American motorists listen to this message from America's roads. It means time and money saved them. They get lasting service with the tires that have won the title, "America's Tested Tires."

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sticky complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.
