

Every Few Days Send Him a pouch of Real GRAVELY Chewing Plug

Think of the welcome he will give it—this condensed plug of fine tobacco that slips flat into his pocket, ready to give him tobacco comfort and satisfaction anywhere, all the time!

Give any man a pouch of Real Gravelly Plug, and he will tell you that's the kind to send. Send the best! Ordinary plug is false economy. It costs less per week to chew Real Gravelly, because a small chew of it lasts a long while.

If you smoke a pipe, slice Gravelly with your knife and add a little to your smoking tobacco. It will give flavor—improve your smoke.

SEND YOUR FRIEND IN THE U. S. SERVICE A POUCH OF GRAVELLY. Dealers all around here carry it in 10c pouches. A 3c stamp will put it into his hands in any Training Camp or Hospital of the U. S. A. Even "over there" a 3c stamp will take it to him. Your dealer will supply envelope and give you official directions how to address it.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

DON'T PUT TOO MANY SEEDS in each hole or drill if you buy them here. For our seeds grow and planting too many means you will have to thin them out. We have all the new varieties as well as the good old favorites. Sweet peas and Sweet William, pansies and peonies, heliotrope and honeysuckle. Selection now will be an advance whiff of their later fragrance.

Helen Greene, clever young lady who is playing Leila Archibald, big sister to Bab, the heroine of "Bab's Matinee Idol," starring Marguerite Clark, has been called an extremist. When questioned as to the reason Miss Greene laughed and said: "You see, the other day I had a severe toothache and was told it was caused by a wisdom tooth. The day following I seemed to be afflicted with a footache, so they called me the extremist!"

Miss Clark as Bab, and Helen Greene as her big sister Leila of the famous Mary Roberts Rinehart stories which appeared in the Saturday Evening Post, are at the Globe Theatre today and Thursday.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

To-morrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal. Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.
