THE WAR, THE FARM AND THE FARMER

By Herbert Quick
Member Federal Farm Loan Board

The farms of this country could carry the war to a victorious conclusion even if all the rest of the nations should quit. The rest will not quit; but we could win it without them if we had to do it. The farmers of the United States can whip Germany. We can whip them with guns. We can whip them with our money. Every farmer in the United States must remember that the war has a first mortgage on every cent he has. The last spare cent in the pockets of every farmer in America should be devoted to the war.

The Kaiser began foreclosing his mortgage on our farms when he declared ruthless submarine warfare. The war is our answer to his bill of foreclosure. Our contribution is, first, our sons and brothers for the trenches; second, the last pound of food products which we can grow by mobilizing our scanty labor supply, utilizing the men, women and children and the townspeople about us; and third, money for Liberty Bonds.

This is the crucial year of the war. Our soldiers are at the front, hundreds of thousands of them in the trenches, and a million more ready to go. The whole burden of carrying on our own part in the war, and of aiding our sister nations in arms, rests on the United States Treasury.

If the treasury fails or falters or finds itself unable to respond to every call upon it, the war is lost. Do you realize that?

Your son, and all the nation's sons are relying on the United States Treasury to furnish things with which they may fight.

Their lives are lost if the treasury fails. Our country is lost if the treasury fails.

Germany wins if the treasury fails. Therefore every cent you can rake and scrape together belongs to the treasury, that our soldiers may come back to us alive and victorious. This is literally true. We can whip the Germans with our money; but not with the money in our pockets or bank accounts. It must go into the United States Treasury in subscriptions to Liberty Bonds.

(This is the last of a series of three articles by Mr. Quick.)

VAUDEVILLE TONIGHT AT THE GLOBE

The Carr trio have the place of honor on the bill at the Globe Theatre today with their novelty singing, talking and dancing act. The woman of the trio, besides being gifted with a sweet voice, a pleasing stage presence, and the possession of some gorgeous gowns, is also an accomplished toe dancer. The men of the team vary their acceptable vocal selections with some novel instrumental numbers.

On the same bill is a Paramount picture, "The Long Trail," featuring Lou Tellegen and Mary Fuller. The

While Gerfard was our ambassador in Berlin, the Kaiser said to him one day that he would stand no nonsense from America after the war.

Do you know what that means? It means that the Germans intend to subjugate this country if they come out of this war victorious.

The German Imperial government has preached the superiority of Germany to all the rest of the world until the German nation is drunk with megalomania. One of their great writers expressed the prevailing official view in 1903, when he wrote:

"The Teutonic race is called upon to circle the earth with its rule, to exploit the treasures of nature and of human power, and to make the passive races servient elements in its cultural development. . . . Whoever has the characteristics of the Teutonic race is superior. All the dark peoples are mentally inferior, because they belong to the passive races. The cultural value of a nation is measured by the quantity of Teutonism it contains."

Are you one of the darker races? Are you willing to be rated as one of the "servient elements" in Germany's cultural development?

You began to be one of the "servient elements" when peaceful people were slaughtered as they carried your produce to market. Was it because you belonged to a "passive race?"

This war is for the purpose of saying to that insane claim, with the roar of a hundred thousand cannon—"NO!"

Never since the Turks threatened to overwhelm Europe was the world in such danger as now. Germany must be defeated this year. Unless we win, our place in the world is lost, and our history as one of the "servient elements" begins. We must withhold nothing from the support of the war. We must give our sons. We must bring forth food in abundance. We must give into the treasury of the United States every cent we can spare.

This summer the support of the war is up to the farmers; and Uncle Sam has never called upon the farmers in vain!

Globe orchestra will accompany the pictures. The prices remain the same as usual.

A subscriber called up the Democrat this afternoon and stated that the name of the avenue mentioned in last night's Democrat should be "Maples" and not "Isoms."

MEAN TO STAMP OUT OBEAH

Authorities Will Put Stop to Practice Too Long Prevalent in the Virgin Islands.

The American officials of the Virgin Islands have taken steps to deal with the novel but serious crime of obeah, which has long been practiced in the islands. Matilda Francois has been arrested and incarcerated as an obeah woman, and announcement has been made that prompt action will be taken by the Americans to show that this wicked and shameful practice must cease.

The obeah is a sort of first cousin of the voodoo of darkest Africa, which is said to be still practiced in the interior of Hayti, and which has not been entirely stamped out in other islands of the West Indies group. The obeah man or woman sets up as a sort of witch doctor professing to cure all ills by use of charms, to be skilled in the preparation of love philters, and of concoctions that are believed to be certain to bring harm to the enemy of the victim who pays.

Superstition still has such strong hold on the minds of those who believe in obeah that they pay their good money and protect them in court until obeah cases at times have become the bane of officials. Often convictions are only brought about through deep-laid plots and skilful work on the part of the police.

EVERYONE MUST HELP.

Wars cannot be fought without money, and upon the Treasury centers every financial demand upon the Nation.

The rich of this country cannot alone meet the needs of the Nation; the men of the country cannot do it alone; the women of the country cannot do it alone; but all of us, the people of the United States, disregarding partisanship, forgetting selfish interests, thinking only of the supremacy of right and determining to vindicate the majesty of American ideals and secure the safety of America and civilization, can do the great and splendid work which God has called upon us to do.

W. G. McADOO,
Secretary of the Treasury.

Advertising Momentum

Many institutions expect advertising to perform miracles, to rehabilitate a depleted list of customers in a few weeks or harvest a golden crop of dollars. Advertising is not based on wizardry any more than on quackery. Its results are cumulative.

There are no miracles in advertising, but money so invested, if invested properly and the opportunities thus created properly followed, will yield handsome returns.

An inquiry from a prospect who has never transacted business with your organization is the most vital and the most potent factor in the success of your business. That inquiry represents growth, development, new business, and new inquiries are worth attention, study and care—the full measure of your service. The aggressive and consistent advertiser whose educational publicity attracts, will find that the business has acquired a new momentum, the effect of which will be apparent in succeeding years.

THE Telephone Vanguard

The soldier off to camp finds that the telephone man has preceded him. It has been the telephone man's job to help make the camp ready for the soldiers. He has gone ahead with the contractors, installing temporary telephone equipment to facilitate the work of construction. As fast as buildings have been erected, permanent central office equipment has been installed, poles have been set and wires strung and the camps and cantonments connected by additional trunk lines to the central offices in nearby towns and cities.

Notwithstanding the scarcity of material, the large amount of equipment required for these camps has been manufactured and delivered in less than half the time ordinarily required.

As a result of this telephone activity, all the varied telephone needs of these great military establishments are amply taken care of and each camp headquarters is in direct telephone communication with the war department at Washington, and with important military points throughout the country.
