THE MEAT LIE

Another mischievous lie, apparently spread by pro-German influences, is at work in many parts of the country. It is to the effect that the United States government wants no fresh meat to be killed for three months this summer.

The lie should be promptly nailed wherever it appears. The government wants nothing of the sort. It expects cattle, sheep and hogs to be killed about as usual. All it asks is that, of the meat thus provided we should eat a little less than usual, particularly of pork products, so that we may send more to our allies.

There are more meat animals in the country than ever before. We have been killing more than ever and exporting more meat than ever, and expect to continue doing so.

The mischief in this particular lie consists in the fact that if it were believed and less livestock were killed and less meat provided, soon there would not be enough meat available for export. Moreover, because meat was scarce here at home, our people would consume more wheat and thus deprive our allies of bread.

CHEAP FOOD

Still people are not eating enough potatoes to finish up the surplus left from last year's crop. Old potatoes in most communities are a drug on the market.

From the mere standpoint of food values, it's absurd not to eat more of them when they're so cheap and so nourishing. You can get more for your money right now in old potatoes than in almost any other foodstuff.

Besides, we all ought to eat potatoes in order to save wheat, to keep our allies from starving.

And there are other sound reasons. Eating up the old potatoes will save the new ones till they're larger and thus increase the food supply instead of diminishing it. Also, a steady demand for the old potatoes, as long as they last, will keep the price from slumping so badly that farmers will be deterred from raising tubers this season. Many of them are saying already that they don't feel like going in for potatoes again because there's no money in it. They ought to be encouraged to plant more than ever.

The work of the CORONER frequently requires the services of an Undertaker, and in the interests of both efficiency and economy it has become generally customary to choose an Undertaker for this office. In connection with the firm of Fisher-Braden Company I have been engaged in the Undertaking Business in the City of Albany, for a number of years, and our establishment is provided with the latest and best equipment, and is prepared to meet every requirement in that line. If elected to the office of Coroner, I would expect to perform the duties of the Office with the same careful attention that I have given to my own business, and at the least possible cost to the Taxpayers. I respectfully solicit your support.
