War Helps Chinese Industry.

The European war and consequent
cessation of imports of German aniline
dyes is bringing about a revival of
China's ancient industry of indigo
making. China's fondness for this
color has earned for her the name of
the Land of the Blue Gown. Indigo
growing is especially adapted to the
Yangtze valley and southern China.
The color is extracted by soaking the
leaves in hot water and beating the
pulp.

Hog Killing in Britain.

According to official figures secured
by the United States food administra-
tion, hogs have decreased much more
than any other class of live stock in
the British Isles. The total decline for
1916 and 1917 was over 600,000, of
which more than 50,000 were brood
sows.

SAYS HOT WATER
WASHES POISONS
FROM THE LIVER

Everyone should drink hot water
with phosphate in it,
before breakfast.

It feels as fine as the proverbial
saddle, we must keep the liver washed
clean, almost every morning, to pre-
vent its sponge-like pores from clog-
ging with indigestible material, sour
bile and poisonous toxins, says a noted
physician.

If you get headaches, it's your liver.
If you catch cold easily, it's your liver.
If you wake up with a bad taste, furred
tongue, nasty breath or stomach be-
comes rancid, it's your liver. Sallow
skin, muddy complexion, watery eyes
all denote liver uncleanness. Your
liver is the most important, also the
most abused and neglected organ of
the body. Few know its function or
how to release the dammed-up body
waste, bile and toxins. Most folks
resort to violent calomel, which is a
dangerous, salivating chemical which
can only be used occasionally because
it accumulates in the tissues, also
attacks the bones.

Every man and woman, sick or
well, should drink each morning be-
fore breakfast a glass of hot water
with a teaspoonful of limestone phos-
phate in it, to wash from the liver and
bowels the previous day's indigestible
material, the poisons, sour bile and
toxins; thus cleansing, sweetening
and freshening the entire alimentary
canal before putting more food into
the stomach.

Limestone phosphate does not re-
strict the diet like calomel, because it
can not salivate for it is harmless and
you can eat anything afterwards. It
is inexpensive and almost tasteless, and
any pharmacist will sell you a quarter
pound, which is sufficient for a dem-
onstration of how hot water and lime-
stone phosphate cleans, stimulates and
freshens the liver, keeping you feeling
fit day in and day out.
