GOODRICH TESTED TIRES

HERE'S a lot of geography in the wear of tires. Some wear well in one region, and wear out in another. Climate, peculiar roads and road conditions are the cause of it. Therefore, good service in a single region is not enough proof of tires that must undergo nationwide use. Least of all could it measure tires up to the TESTED standard, Goodrich demands of tires.

With a command to find out what Goodrich Tires do on the roads of every section of our country, and what the roads of every section do to Goodrich Tires, Goodrich sent its famous Six Fleets of over forty cars, light and heavy, the length and breadth of our nation to an aggregate mileage of 1,044,686 linear miles, and 4,178,744 tire miles.

The Pacific Fleet contributed 166,960 miles on desert paths and coast highways; the Mountain Fleet 55,796 through the Rocky Mountains; The Dixie Fleet 3,285,860 in the South and North Midland; the Prairie Fleet 193,744 on the Great Plains; The Lake Fleet 217,372; and The Atlantic Fleet 254,012 on a grand tour of many tours ranging from Virginia, through New England, and back to the City of Goodrich.

Throughout this road roughing, SILVERTOWN CORDS, and BLACK SAFETY TREADS, proved themselves the tires of durability and dependability wherever you go in our broad land. They verified all the good qualities of Goodrich Tires, and revealed many new virtues.

Get the economy, the comfort and certainty of such proven service by demanding the tires proved out in 4,178,744 miles over American roads—America's Tested Tires.

HAMILTONS' SLENDERNESS

Not Simulated—BUT REAL

will be yours when you wear a **NEMO SELF-REDUCING CORSET!**

This remarkable service is due to the patented construction of the Self-Reducing Straps, and their partial detachment from the body of the corset. This, while insuring the required rigidity, permits sufficient play to produce a gentle, passive massage. New Self-Reducing Straps reduce the figure in the same way that a massage does, only they work for you all the time your Corset is worn. The support of Nemo Self-Reducing Corsets is most healthful and comfortable. Their durability makes them very economical.

We have your model in stock. Won't you come in soon and be fitted?

Nemo Self-Reducing Corsets—\$3.50 to \$6.00

The claim for most of the so-called "reducing corsets" is that they make you "look slender." The claim we make for the Nemo Self-Reducing, which is well-founded, is that they positively banish excess flesh, driving it away and keeping it away!

\$15,000 for Albany College

Is this community's part of \$25,000 which must be provided to meet the synod's requirement respecting the College's indebtedness.

Why the Debt?

Because five years' Campaigning for a quarter-million endowment cost many thousands. Also, the government's standardization requirements cost about \$10,000 for new equipment.

How to Raise the Debt

We will ask for \$15,000 Liberty Bonds. If the people give them, good. If they will only loan them for five years, the trustees will endeavor to raise the money so as to return the bonds to the lenders at the end of five years. But GIVE THEM OUTRIGHT if possible.

Will the College Stay in Albany?

WE THINK SO. We are asking these subscriptions on this condition. Get ready to GIVE next week and
