

A little show of Gravelly helps the
Observation Officer through many a
hard hour.

He Will Welcome a pouch of Real GRAVELLY Chewing Plug

Any gift from the folks back home means a lot to the boy. When you send him tobacco, let it be good tobacco—tobacco worth sending all that long way—the flat, compressed plug of Real Gravelly.

Give any man a chew of Real Gravelly Plug, and he will tell you that's the kind to send. Send the best!

Ordinary plug is false economy. It costs less per week to chew Real Gravelly, because a small chew of it lasts a long while.

If you smoke a pipe, slice Gravelly with your knife and add a little to your smoking tobacco. It will give flavor—improve your smoke.

SEND YOUR FRIEND IN THE U. S. SERVICE
A POUCH OF GRAVELLY

Dealers all around here carry it in 10c pouches. A 3c stamp will put it into his hands in any Training Camp or Hospital of the U. S. A. Even "over there" a 3c stamp will take it to him.

Went to Portland—

Mrs. Lillian Redeker went to Portland this morning on business.

Returned to Eugene—

Mrs. L. E. Martin returned to her home in Eugene this morning after visiting her two daughters that are

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 600 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

MAY ADOPT DECIMAL SYSTEM

England Seriously Considering Abandoning Its Antiquated Currency in Favor of Simplicity.

England may adopt the decimal system for its currency. The agitation for this reform appears to be gaining favor with the British people, and among the important agencies behind the movement is the Associated Chamber of Commerce of the United Kingdom. For generations schoolboys have been learning this: Four farthings make one penny, twelve pence make one shilling, twenty shillings make one pound, twenty-one shillings sterling make one guinea, twenty shillings sterling make one sovereign.

Then there were the symbols to learn—the capital "L" with a short line across the shank of the letter for the Latin "libra," or pound; the little "s" for shilling, or the Latin solidus; the little "d" for denarius, or penny, and the "qr" for "quadrans," or quarter of a penny, standing for farthing, though latterly "far" came to stand generally for farthing. All American schoolboys have studied the table of English money in that part of their arithmetic dealing with "reduction," which is "the changing of numbers, either simple or compound, from one denomination to another without altering their values." Many men will probably remember that as boys they worked and labored over two kinds of "reduction," which were called "reduction descending and reduction ascending."

The decimalizing of English money is, of course, in the line of simplification. Some of the financial powers and papers are urging that parliament take the matter under consideration, and it is likely to come up for official treatment and discussion at any time.

the commencement address for Albany college last evening. He returned to Portland this morning.

Had Tonsils Removed—

Mr. and Mrs. E. R. Wood of Blodgett came over yesterday to spend a few days in Albany. Mr. Wood had his tonsils removed yesterday.

For Graduation

You 40 or more young ladies deserve a great deal of praise for what you have accomplished, and we desire to add our congratulations to the many others you will receive.

Your graduation will make you a conspicuous figure among your many friends, and as a Hat is the most prominent feature of any wardrobe, we wish to call your attention to the large variety of moderately-priced Millinery now displayed. The summer styles are larger and very beautiful. Reasonable in cost, correct in style and suited to your taste, and this important occasion.

COME IN TOMORROW AND GET ONE

W. O. W. NOTICE

Special meeting for all members of Albany Camp Wednesday, 8 p. m., to make final arrangements for our class initiation on Friday, June 7.

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs. Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, shallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

HUSBAND PLANS TO ELOPE, THEN LOSES HIS NERVE

Milton Sims, while at the beach with his wife, Maude W. Sims, meets Dorothy Hagar, an old friend, in the Triangle-Keystone comedy, "Afraid to Be False," at the Rolfe Theater on Wednesday and Thursday. Sims' good resolutions go up in smoke when he sees Dorothy, and he calls on her the following day. They plan to elope, and arrange to meet at the railway station, but when Milt gets to the station he has "cold feet" and returns home. Lloyd Bacon, however, was in love with Milt's wife, and called on her in the meantime. When Milt arrives home the fun begins, and an unusually funny ending is the result.

Back of the Firing Line

Modern war conditions demand that our armies must have behind them national solidarity, the coordination of all the vast activities and an industrial army many times greater than the Nation's fighting forces. The Nation's capital is linked with all these varied activities by the toll and long distance lines of the Bell System. Thousands of miles of special wire systems have been turned over to the Government for its exclusive use. Switchboards in the Government departments at Washington have been enlarged and new ones installed. Right of way is given to Government business over all commercial lines, so that the Government chiefs may keep in constant touch with every phase of the Nation's great task and direct its progress intelligently and effectively. In organizing the military activities of the country, the Government has had the effective cooperation of the Bell Telephone System, which even in peace times reached 70,000 communities and now extends to the headquarters of every Army Department and Naval District in the United States.
