SEATTLE 1898
Remember the year of the Big Stampede and the Trail of Ninety-Eight,
When the eyes of the world were turned to the North, and the hearts of men elate,
We landed in wind-swept Skagway. We joined the weltering mass,
Clamoring over their outfits, ready to climb the Pass,
"Klondike or Bust!" rang the slogan; cruel and callous and cold;
And men went mad in the moment, huskily clamoring "Gold!"

Advertising Momentum

Many institutions expect advertising to perform miracles, to rehabilitate a depleted list of customers in a few weeks or harvest a golden crop of dollars. Advertising is not based on wizardry any more than on quackery. Its results are cumulative.

There are no miracles in advertising, but money so invested, if invested properly and the opportunities thus created properly followed, will yield handsome returns.

An inquiry from a prospect who has never transacted business with your organization is the most vital and the most potent factor in the success of your business. That inquiry represents growth, development new business, —and new inquiries are worth attention, study and care—the full measure of your service. The aggressive and consistent advertiser whose educational publicity attracts, will find that the business has acquired a new momentum, the effect of which will be apparent in succeeding years.
