CARMEN OF THE KLONDIKE

With Clara Williams

"That Carmen gal looked good to me
 In the dance hall north of fifty-three,
 An' I bet my poke, an' I bet my claim,
 An' I played ace-high in that faro game,
 An' I stacked my cards, but, just the same,
 She trimmed me like a fool."

The First Infantry Guns Weighed 75 Pounds

FOOT soldiers began to carry firearms about 1350, huge, clumsy guns weighing from 25 to 75 pounds.

Mere hand cannon, iron or copper tubes, they were leveled by a forked support, and fired at a touch hole.

With the invention of the wheel-lock arquebus, in 1517, the first self-firing gun, the musket, was a quick step.

Like the first guns, automobile tires, when Goodrich began to develop them, were crude, clumsy affairs, and it's a long, long road of improvement to the symmetrical—

GOODRICH SERVICE VALUE TIRES

The history of the last twenty-two years of The B. F. Goodrich Rubber Company is pretty much the history of pneumatic automobile tire.

But whether Goodrich was bringing forth America's first clincher tire, or America's first cord tire—

Goodrich built tires to but one end—SERVICE VALUE to the user—the worth of the tire to the motorist on his car and on the road in comfort, economy, dependability and durability, and mileage.

That is why the tire user to-day gets the utmost SERVICE VALUE in GOODRICH SILVERTOWN CORDS, and BLACK SAFETY TREADS.

Demand SERVICE VALUE TIRES.
