

UNIVERSAL VACUUM BOTTLES

WHETHER at work or play, in the home or out of doors, there is many a time when you long for a refreshing drink—when you would give anything for the feeling of satisfaction that a beverage from a UNIVERSAL Vacuum Bottle affords.

Lunches carried by school children and workers in office or factory are improved and made healthful by a drink of hot coffee or cold milk contained in the Vacuum Bottle of the UNIVERSAL Lunch Sets.

The *Casale* is the most up-to-date and practical vessel for table service. Widely used in offices and on verandas.

In the nursery or sickroom the UNIVERSAL Bottle is considered a necessity for emergency purposes.

WHAT YOU SHOULD KNOW ABOUT "ROSE OF THE WORLD"

"Rose of the World" is adapted for the screen from the book by Agnes and Edgerton Castle. The scenario was written by Charles Maigra. The Castles have won fame in the literary world for the gripping suspense and mystery of their stories, and "Rose of the World," was their crowning achievement.

Miss Elsie Ferguson is the star, this being her third appearance in pictures, all released by Arcraft. Miss Ferguson is especially suited to heavy roles, having won her greatest successes on the regular stage in characters similar to "Rosemond," the highly emotional part she interprets in "Rose of the World." This story was selected by Miss Ferguson on account of the many intensely dramatic situations it presented. She is one of the few really great stars possessing youth, beauty and talent, and as the widow of a war hero she makes an appealing figure.

The photoplay will undoubtedly cause favorable comment throughout the country as an artistic and dramatic offering of extraordinary merit. Arcraft pictures are admittedly the best photoplays in the world, and "Rose of the World" is one of the best released by Arcraft. At the Globe today.

"PARENTAGE IS A PICTURE OF TYPES"

Actors Characteristically Chosen for Various Parts

The cast of characters in "Parentage," shown at the Rolfe Theater Friday and Saturday, is made up of types from everyday life and they are distinctive because they have been especially chosen to fit their part.

In this way Hobart Henley, the director, has made each part stand out, so that people who see the play will see in each character the double of some one they know in real life.

Types of boys called the "shanty gang" are particularly well-drawn—the type of the constructive young man, the type of the waster, the types as well known as "gossips"—and types of children, are a few in whom it is easy to read their characteristics. But not only are their faces an index into their character in "Parentage," but during the entire play they enact their parts in the most convincing manner, the character fitting the part and the part the character.

The real value of "Parentage" to patrons besides bringing home to them the vital problems of life, is the fact that it is a human document, humanly played by human beings as easily recognized as you and your neighbors.

Take Care of Your Tires

America's greatest need is for ships—more ships. Every available vessel is being utilized in government service.

Many ships that have been carrying rubber from Sumatra and Brazil have been taken for active transport duty.

This will necessarily force a temporary curtailment of tire production.

So, make the most of the tires you have.

Use good tires.

Take good care of them. Keep them in perfect repair. See that they are properly inflated.

Increase their mileage by careful driving. Keep out of car tracks and away from bumps. Don't scrape the curb or apply brakes too suddenly.

Get every mile your tires have in them.

Only in that way can you be assured of your car's continuous service.

Advertising Momentum

Many institutions expect advertising to perform miracles, to rehabilitate a depleted list of customers in a few weeks or harvest a golden crop of dollars. Advertising is not based on wizardry any more than on quackery. Its results are cumulative.

There are no miracles in advertising, but money so invested, if invested properly and the opportunities thus created properly followed, will yield handsome returns.

An inquiry from a prospect who has never transacted business with your organization is the most vital and the most potent factor in the success of your business. That inquiry represents growth, development new business, —and new inquiries, are worth attention, study and care—the full measure of your service. The aggressive and consistent advertiser whose educational publicity attracts, will find that the business has acquired a new momentum, the effect of which will be apparent in succeeding years.
