YOU DO BETTER HERE FOR LESS

WHAT DO YOU LOVE MOST?

Your wife, your parent, your country, your bankbook, or your best girl?

That is a question which may be hard to answer for many but it is best answered by Wallace Reid in "The Thing We Love," at the Globe Theater Wednesday and the Fourth of July.

"WORK OR FIGHT" RULE

(Continued from Page One)

cooks or other employes unless they are engaged in the serving of food

and drink, or either.)

Passenger-elevator operators and attendants; and door men, footmen, carriage openers and other attendants in clubs, hotels, stores, apartment houses, office buildings and bath houses.

(The words 'other attendants' include bellboys and also include porters unless such porters are engaged in heavy work.)

Persons, including ushers and other attendants, engaged and occupied in and in connection with games, sports and amusements, excepting actual performers in legitimate concerts, operas or theatrical performances.

(Includes, in addition to ushers and other attendants, all persons engaged and occupied in games, sports and amusements, except actual performers in legitimate concerts, operas or theatrical performances.)

Persons employed in domestic service.

Excess Profits to Go to Government

WASHINGTON, July 1.—(U. P.)—Food Administrator Hoover today instructed the flour millers to average their returns since January 1st and to refund to the government all profits exceeding 25 cents per barrel. The government will take this excess profits in flour at a dollar per barrel.

Former Resident Is Killed in Action

(Communicated)

Miss Mary Lines of Knox Butte has received word that her fiance, George Burrell Sellars, with the 20th company, United States Marine Corps, died of wounds received in action on the French front June 7. Private Sellars was a law student in the University of Minnesota at the time of his enlistment.

He trained at Mary Island with a number of Albany boys. He spent one year in the vicinity of Albany, and had many friends here.

Corvallis Mill on Fire

According to reports from Corvallis a sawmill in the vicinity of Corvallis is on fire and there is danger of it spreading to the large timber.

GOT RIGHT POINT OF VIEW

Autoist, When He Cooled Down, Was Able to See Where Traffic Policeman Was Correct.

The autoist was waiting for the corner traffic man to give the signal to make the turn at the corner. When he thought he had been there long enough he began tooting his horn impatiently. The traffic man kept on taking care of traffic. The autoist became more impatient with his horn.

"You won't help matters that way, my friend," said the traffic man, as he waved him on.

"Aw, take me to jail, but don't bawl me out!" exclaimed the driver.

The policeman motioned him over toward the curb. "I could take your suggestion, but I won't. You are angry now, but when you cool off you will understand that the corner man has many problems to contend with," said the policeman. "We do not usually make explanations, but I am doing so in this case, because I think you should realize that you are in the wrong."

The autoist drove on, mumbling. A few days later he stopped in the same place. "Say," he said to the policeman, "I made a fool out of myself the other day. I had no right to be angry. You fellows have enough vexations without some one who goes across your corner once a day adding to them by smart remarks."

The policeman smiled and waved him on. That autoist today probably would fight for the corner, if necessary.—Indianapolis News.

Only One Hog Had Dollar.

A fat hog at the Omaha stock yards coughed up a dollar when "Snuff" Smith, an employee of a commission company, kicked it in the head. The hog was trying to run past him when he wanted it to go the other way. He gave it a vigorous kick. It coughed, gagged, sputtered a moment and then spat up the dollar.

Stockyard men throughout the rest of the day had a lot of fun about the incident. The commission company claimed the dollar. Smith claimed it. The owner of the hog claimed it, and as a result Smith spent it for cigars for the crowd.

A lot of the employees in the yards began to kick hogs right and left in the hope of shaking out another dollar. One employee said he had kicked 612 hogs during the day and hadn't got even a dime.

Little Danger of Salt Famine.

So universally needed, salt deposits are found in many parts of the world. The quantity of salt in the ocean is said to be equal to at least five times the mass of the Alps. Near Cracow, Poland, is a bed 500 miles long, 20 miles wide and a quarter of a mile thick. This mine is the greatest of its kind in the world and houses a complete city under the earth's crust engaged in operating the salt deposits. Houses, streets, electric lights and all the accessories of above-ground villages are here found. Mine mules have been born in the Cracow works, to live a long life of usefulness without once ever coming to the surface.

Did You Get One?

If you did you have plenty of company, for every delinquent Democrat subscriber received a statement of his account during the past two weeks. Don't frame it. Frame a cancelled check. It is more ornamental and will help The Democrat meet the increased cost of newspaper production.

If the Huns Were Marching on Albany

How much of your money would you lend to our Government to prevent your mother and father from being shot down like dogs?

What would it be worth to you to preserve the honor of your daughter?

How much bid to prevent that lovely infant from dangling on the point of a German bayonet?

You would knock down the man who dared suggest that you measure such things in terms of money.

Then how happy we ought to be to think that a little of our money, LOANED to our Government, will hasten the end of this awfulness.

Can you think of a cheaper price to pay than mere money?

A five-act Triangle Play

Back of the Firing Line

Modern war conditions demand that our armies must have behind them national solidarity, the coordination of all the vast activities and an industrial army many times greater than the Nation's fighting forces.

The Nation's capital is linked with all these varied activities by the toll and long distance lines of the Bell System. Thousands of miles of special wire systems have been turned over to the Government for its exclusive use. Switchboards in the Government departments at Washington have been enlarged and new ones installed. Right of way is given to Government business over all commercial lines, so that the Government chiefs may keep in constant touch with every phase of the Nation's great task and direct its progress intelligently and effectively.

In organizing the military activities of the country, the Government has had the effective cooperation of the Bell Telephone System, which even in peace times reached 70,000 communities and now extends to the headquarters of every Army Department and Naval District in the United States.
