MY FOUR YEARS IN GERMANY BIG FEATURE FILM OF YEAR

Although without doubt Germany knows America through its policy of intrigue and spying it knows little of Americans as is proven by the entire mistaken policy of Germany with a nation that strove to keep its neutrality until patience was entirely exhausted.

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using
Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair, which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

When you see in the feature photograph production of Ambassador Gerard's "My Four Years in Germany," the representative of Kultur in the person of the Kaiser as he shook his finger under the nose of our ambassador with the expressed warning that "he would stand no nonsense from America after the war," you will better understand the reasons for America's present position in the conflict.

"My Four Years in Germany" is a big dramatic production that will give Americans a better understanding of the most important page in world history.

It will be shown at the Rolfe tonight and Thursday.
