COME AND SEE

This Electric Range Will Save Coal for Uncle Sam and Time and Labor for You

Careful tests have shown that 262.7 pounds of coal are required by a central station to supply a family with cooking current equivalent to 800 pounds of coal consumed in a solid fuel range. An electric range will do your cooking better and save on your food bill. The elimination of the fuel and ash problem saves a world of time and labor. Arrange to install an electric range in your home today. A WHOLE YEAR TO PAY Telephone 15 for particulars.
