PUBLIC UTILITIES—MAINTENANCE

The following resolution was adopted by the Chamber of Commerce of the United States at its sixth annual meeting held in Chicago April 10-12, 1918:

"WHEREAS, the maintenance of the country's public utilities in the highest possible state of efficiency is essential not only to the war program of the United States but also to the nation's business, industrial and public interests; and

"WHEREAS, such efficiency depends upon the preservation of the

credit of the companies providing public utility service; and

"WHEREAS, the increase of cost and the unusually onerous conditions of operation brought about by the war seriously threaten the ability of the public utilities to continue the furnishing services they perform; and

"WHEREAS, the protection of the credit of public utilities is very largely in the hands of regulatory commissions and other public authorities, rather than in the utilities themselves;

"NOW, THEREFORE, BE IT RESOLVED, that the Chamber of Commerce of the United States recommends to state and local authorities that they recognize the unusual and onerous conditions with which public utilities are contending, and that in the interest of the nation, of business, and of the public they give prompt and sympathetic hearing to the petitions of such utilities for assistance and relief."

The old streetcar poles on Lyon street between First and Second streets have been removed. The matter has been under discussion in the city council for some weeks.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, and slow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before putting more food into the stomach.

To feel like young folks feel: Like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so natural, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

EGGS FIFTY YEARS YOUNG

PHILADELPHIA, April 18.—Eggs from China—not China eggs, but hen's eggs—50 years stale have been seized by Robert Simmers, agent of the state dairy and food commission.

Eggs is eggs, but 50-year-old eggs, although still eggs are not the proper kind for Philadelphia, in the opinion of Simmers. The whole proceeding ran in 50s. There were 50 cases of eggs, they were 50 years old, and it took Simmers just about 50 seconds to taboo them.

The consignment was packed in air tight cans and was to have been put in cold storage at the Reading Terminal plant until bakers needed them for cake. They were canned, alright.

PLUCKY WOMAN CAPTURES BURGLAR IN HER HOME

If you were a woman—a homeloving bit of femininity to whom the seamy side of life is a dark mystery—what would you do if you were confronted with a burglar in your home?

Would you scream, faint, hide underneath the bedclothes and let the bold marauder go this thieving way unhampered, or would you slip noiselessly from your couch, clutch your dainty pearl-handled .22 in your hand and go silently forth to face a man who would take life to keep his liberty?

It's a very dramatic and amusing story, this tale of "The Hopper." "The Hopper" didn't really intend to burgle Mrs. Talbot, but found it necessary to visit her premises in order to discover how he might return a child whom he had unintentionally kidnapped. For the safeblower had reformed and was living happily in the
