TERMS FOR GERMANY

For Bulgaria there may be some slight need of mercy. Turkey, if she repents and surrenders in time, may possibly win some fate less than strict justice.

"No peace by negotiation, no compromise, no talk even of the cessation of hostilities until the Prussian army is annihilated and militarism obliterated." This formula, from Rabbi Wise of New York City, might well be accepted as the motto of the American people.

We need not take the trouble to send it to Germany as our ultimatum. We have nothing whatever to say to Germany henceforth until we have wiped out the German army, destroyed or taken the German navy and rounded up the criminal statesmen and generals who constitute the brains and spine of German militarism.

And our talk then will not be a conference. It will be a verdict, prescribing Germany's fate and future conduct, and backed by the armed power of the whole civilized world.

LIBERTY BONDS IN CHINA

Says a dispatch from China: "America's Fourth Liberty Loan campaign has been indorsed by most of the Chinese chambers of commerce and is being promoted by the most extensive advertising campaign in the history of China."

Doesn't that give you a new slant on this war loan? How would you like to have any Chinese community beat us in subscriptions to our own Liberty Bonds?

STIFFEN UP

Do you want to do Germany a favor? Then feel sure she is sincere in her latest peace proposal, that she is already beaten and the whole show will be over by Christmas and the boys will be home by Easter.

That is what Germany wants. You slacken up just a little bit—and watch the crafty Hun jump on you!

Foch is doing marvelous things in France. And Allenby and d'Esperey and the rest of them deserve all the credit in the world, not to mention our own gallant boys.

But we are very far from being out of the woods yet. The ground actually taken in these victories is a mere patch to what there is yet to take. Much work of fighting, much work of making things, much work of saving every useful thing is yet to be done in all the allied countries and especially in ours.

Moreover, even if the war, by some miracle of miracles, were to be over soon, relaxing of any kind of effort would yet be fatal. Particularly absurd no one of the allies at home or abroad begin to have the feeling, common to all square fighters and trustworthy thinkers, that with the Germans beaten we can begin to relax our severity and distrust and be generous to the conquered foe.

Germany is no gentlemanly opponent, no foe man worthy of our steel. She deserves not one jot nor tittle of

the consideration we could give to such an enemy.

Cowardly, treacherous, reaching out now to stab in the back the trade of the world, Germany must be dealt with not as a nation among nations, but as an international pariah—a thief, a sneak, an assassin.

Thirty Feet of Danger

The intestinal canal is an important part of every individual, important every inch of its thirty feet.

The upper portion of it is intended for the digestion of food and absorption of its useful portions. But the lower part is concerned with the elimination of waste material.

It is, in other words, the great sewer of the body. The more food eaten, the greater the waste. If a sewer becomes clogged up, its contents stagnate and become more and more dangerous.

Constipation means more than failure to evacuate the bowels regularly and thoroughly. It means stagnation, increased fermentation, putrefaction and germ action. Increased amounts of irritating and poisonous substances are formed. Absorption of these into the blood follows. Self-poisoning results.

Danger, disorder, disease, or even death follow.

Pills, purgative mineral waters, castor oil, salts, etc., do not cure constipation or prevent its consequences. They make it worse because they do not only irritate the bowels, but they "wear out" in effect and so must be taken in increasing doses, making constipation a habit.

But the Nujol Treatment for Constipation overcomes constipation by helping Nature re-establish easy, daily, thorough bowel evacuation as "regular as clockwork."

Nujol prevents stagnation and self-poisoning. Nujol forms no habit, except a natural, healthy habit.

After Nujol has trained the bowels to act, it can be dispensed with.
