

Prince Max Accepts Terms Laid Down by Wilson

GERMAN AND TURKISH PEACE NOTES DELIVERED TODAY; HOHENZOLLERNS MUST GO FIRST SAYS PRES. WILSON

Senator Ashurst Assured by President He Will Do Nothing to Weaken Advantages Gained by the Victorious Allied Armies

WILSON CONFERRING WITH ALLIED COUNTRIES PRIOR TO MAKING REPLY

Telegrams Pour Into Washington Demanding Unconditional Surrender; U. S. May Demand the Overthrow of Hohenzollerns

WASHINGTON, Oct. 14.—Wilson says autocracy must go before peace can be had. No armistice is possible while Germany continues her illegal practices.

WASHINGTON, Oct. 14.—Germany's reply was officially delivered to the state department at 11:55 today. It was the same as the unofficial text.

Secretaries Lansing and Baker went to the White House at 10. The President got the official text at 12:15.

WASHINGTON, Oct. 14.—By United Press.—Turkey today brought President Wilson to reestablish peace. She accepted Wilson's 14 terms as a basis for negotiations. She requested an immediate general armistice, on similar conditions as Germany's note suggested.

Secretary Lansing tonight will inform the nation what Wilson decides regarding Germany's peace proffer.

WASHINGTON, Oct. 14.—Senator Ashurst after conferring with the President, assured the senate this afternoon that the country "may rest assured the President will do nothing to weaken the advantages gained by the victorious allied armies." He said President Wilson was obtaining the views of Clemenceau and Lloyd-George.

Senator Thomas of Colorado introduced a resolution today demanding that Germany accept the allies' demands for reparation, restitution, and guarantees of the additional 14 terms' acceptance before an armistice be negotiated.

By ROBERT J. BENDER

WASHINGTON, Oct. 14.—With thousands of telegrams pouring into the White House demanding unconditional surrender, the hope was openly expressed today in official circles that the President would refuse to negotiate with the Central Empires while the Hohenzollern and Hapsburgs remain in power.

Meanwhile the President conferred with Secretaries Lansing and Baker and Colonel E. M. House, regarding the reply which all agreed must be forthcoming quickly.

Only one thing—the record of the Hohenzollerns—appears to stay Wilson's hand in accepting Germany's plea for action to restore peace. Even this obstruction may be waived by the President provided a bond—either human hostages or allied occupation of some German territory—is given to insure Germany's keeping faith.

If the President finds he cannot talk business with the present German authorities, it is believed he will clearly show the German people how they may hasten peace.

To understand thoroughly the rather marked change in the atmosphere about the momentous situation since the President's return to Washington, three things must be remembered: First, the President is essentially a man of peace. Second, he has stated on several occasions that he would hearken at any time to peace proffers "if sincerely made." Third, he believes the acceptance of his 14 peace principles is tantamount to unconditional surrender.

It is understood that this government holds the agreement to evacuate German-occupied territory includes Russian territory. Officials declare the armistice would be arranged entirely by Generals Foch, Haig, Diaz, Allenby and Pershing.

PARIS, Oct. 12.—France is unanimously determined not to negotiate with Germany until the latter's power to harm is absolutely ended, it is semi-officially announced.

AMSTERDAM, Oct. 14.—The Luxembourg Government appealed today to President Wilson for protection of Luxembourg's rights. Demands that the German armies evacuate Luxembourg were made.

WASHINGTON, Oct. 12.—A wireless despatch sent out from Nauen, the great German wireless station, picked up and forwarded to official diplomatic sources here tonight, purports to give the text of Germany's answer to President Wilson's inquiry to Chancellor Maximilian on Germany's peace proposal. On its face it seems a complete acceptance of President Wilson's terms.

The text of the note as received here says Germany accepts President Wilson's terms as laid down; accepts evacuation of invaded territories as an accessory preliminary to an armistice, and asks for a mixed commission to make the arrangements; declares that the chancellor speaks "in the name of the German government and of the German people," and that its only object in entering into discussions is to agree on the practical details for carrying out the terms President Wilson has laid down.

The text of the note follows: "In reply to the questions of the President of the United States of America the German Government hereby declares:

"The German Government has accepted the terms laid down by President Wilson in his address of January 8, and in his subsequent addresses, on

the foundation of a permanent peace of justice. Consequently, its object in entering into discussions would be only to agree upon practical details of the application of these terms. The German Government believes that the governments of the powers associated with the Government of the United States also take the position taken by President Wilson in his address. The German Government, in accord with the Austro-Hungarian Government, for the purpose of bringing about an armistice, declares itself ready to comply with the propositions of the President in regard to evacuation.

"The German Government suggests that the President may occasion the meeting of a mixed commission for making the necessary arrangements concerning the evacuation. The present German Government, which has undertaken the responsibility for this step towards peace, has been formed by conferences and in agreement with the great majority of the Reichstag. The chancellor, supported in all of his actions by the will of his majority, speaks in the name of the German Government and of the German people.

I can buy bonds, and try to get others to buy more bonds. Of course we little folks cannot do as much as the big folks can, but we can knit socks and sweaters for the soldiers, and we can be saving; we can pray for the government and I think that is all that little folks can do.
