This Electric Range Will Save Coal for Uncle Sam and Time and Labor for You

Careful tests have shown that 262.7 pounds of coal are required by a central station to supply a family with cooking current equivalent to 800 pounds of coal consumed in a solid fuel range. An electric range will do your cooking better and save on your food bill. The elimination of the fuel and ash problem saves a world of time and labor. Arrange to install an electric range in your home today. A WHOLE YEAR TO PAY Telephone 15 for particulars.

YANKS ENJOY CHOW

TIME MOST OF ALL

WITH THE YANKEES, France, Oct. 15.—Chow time means one of the most picturesque sights along the front, especially with the Americans. It seems to mean more to them than to any other army, perhaps because American "grub" is better.

Happen along thru a ruined village or a woods in an American sector 15 minutes before chow time and you could think the place deserted. Probably there wouldn't be more than one or two stray doughboys in sight.

Come along 15 minutes later and you wonder where in thunder they all came from.

They'll be lined up, and in front of each line there'll be a field kitchen steaming away with a perspiring army cook dishing out grub that makes you want to grab some tools and get in line too.

There's lots of animation at chow time among the Americans. A crowd of Frenchmen is quiet while eating, the only time French soldiers are quiet. They munch their bread and meat and vegetables and sip their wine in silence.

Not so with the lads from Yankee land. It's a big time. First of all, there's speculation on "what's to chow for today." There's variety in Uncle Sam's menus.

Then as they sit around on the ground, on ruins, or under trees, and that satisfied feeling of having eaten a good meal grows upon them, there's lots of life and joking among them.

At this the Frenchies marvel.

"Doughboy chow" is good. Usually there is soup. Then there are meat and vegetables, usually two kinds. There are always big slices of white bread and coffee. Nine times out of ten there's dessert, probably pudding or fruit.

Each man has a pan with a handle that folds into it, and a cup. Some way they get some of everything in a four-course meal into these two instruments and never mix foods. Only one of these war experts could do that.

MARGUERITE CLARK IN PRUNELLA AT THE GLOBE

A treat for movie lovers is in store at the Globe tomorrow when dainty Marguerite Clark appears in a Paramount version of "Prunella," remembered as her greatest stage success.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

some years back. A story of love in a Dutch garden, the picture is even more beautiful than the stage version.

The cast includes Jules Raucourt as the Pierrot who falls in love with Prunella and abducts her from the prim home of her aunts, only to desert her later. How he finds that after all he cannot live without her and returns to her old home in the hope that she, too, will come, is skilfully and charmingly shown.

ARMITAGE HERE

BOOSTING JUDGE COKE

S. C. Armitage, secretary of the Kentucky Klick, of which Mark O. Neill of Portland is president, was in Albany yesterday in the interest of the candidacy of Judge Coke for a place on the supreme bench of the state.

Armitage is pointing out to party leaders in various parts of the state that the democrats have thus far failed to bring out a candidate for this office and should therefore line up behind Coke.

RAGTIME TUNE IS FINE

MEDICINE FOR YANKS

AN AMERICAN HOSPITAL, France, Oct. 15.—Ragtime music is great medicine, so they've discovered in one hospital where a lot of Americans are recovering. They organized a jazz band to play on state occasions. Then someone had the hunch to try ragtime on the patients.

They have one ward on a pavilion that used to be part of a casino. It's large, airy and open, and was meant for a music hall. The sergeant began arranging things for the evening, and this included escorting a piano to the ward.

Patients' interest began to pick up, and here and there came, "Hey, Sarge, what's this evening? Let us in on it."

"Nothing doing. You'll see when the time comes."

Just before dusk the jazz band slipped in quietly and began to play "Waikiki." Then another snappy dance piece.

Here and there the bedcovers began to move as a foot kept time, and heads began to crane out of pillows with grins on them, many from patients who hadn't budged or shown any life for a long time.

Next, some were sitting up, and before long more were, men who'd not been off their backs since they arrived. Shoulders were swaying, and everyone was happy.

REMINGTON UMC

Wetproof Steel Lined Shot Shells

DOUBLE your duck hunting luck in rough weather with the right shotshells—Remington UMC's "Arrow" or "Nitro Club" Wetproof Steel Lined "Speed Shells" made to stay dry and firm as a bullet no matter how wet the pocket that contains them, and shoot right.

With the right shells in your Remington UMC Pump Gun or Autoloading Shotgun there will be no hitch at the critical moment—no gun jammed with a water-soaked and swelled shell—no fiasco shot from rusty turn-overs of the shell ends.

Remington UMC's "Arrow" and "Nitro Club" Wetproof Steel Lined "Speed Shells" are completely proofed against wetness by a wonderful and exclusive process, which it took three years to perfect. This improvement costs you nothing.

Just buy the same favorite "Arrow" or "Nitro Club" brand, as usual, at the regular price. You will get the Wetproof improvement extra, without charge. You will not be able to see this improvement but you will know it is there when you put it to the test of shooting under conditions which only Wetproof shells can stand.

They will stay hard and smooth as usual, with the turned-over end entirely firm and top wad flat. If you can detect any difference in the results in shooting them when they "ought to" be good and wet, you will be the first to succeed in doing so. The same highest dependability and performance qualities as always.

In black powder shells, buy the old reliable "New Club," now Wetproof sealed at turnover and top wad.
