CANADA TAKES CENSUS OF MEN AT THE FRONT

The back to the land movement for disabled soldiers in Canada is being handled by the department of soldiers' civil reestablishment thru a census of the soldiers, with a view to ascertaining their occupations and future ambitions. About 200,000 cards have already been obtained and are being analyzed in order that the government may know the magnitude of the problem.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 600 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

and single? How many have family ties? How many under each trade heading want to go to each province? The farm problem is one that has been carefully considered in Canada, but one difficulty has arisen in the desire of the men to obtain land in fairly well developed communities instead of being shipped into remote places. Most of the land readily available is owned by railway companies, and one faction in politics believes this should be released for the returned soldiers.
