If in these days of high prices you found a butcher who charged 20 per cent less than the others you'd patronize him, wouldn't you? It would be worth considerable effort to save that much every week on household expenses.

Well, here's a way you can save 20 per cent on your meat bills without trouble, without exertion.

How? By means of electric range cooking—the cleanest, easiest, surest way of cooking food just right.

Electric Ranges are so simple in operation that a 12-year-old child can prepare a superior meal with little instruction. And that 20 per cent saving on meats—is due to the construction of the oven, which prevents evaporation and retains the juices. You not only save 20 per cent, but the meat is more delicious, appetizing and wholesome.

We have a special cooking rate—and a time limited proposition which you can't afford to overlook.

Mrs. Hans Flo left the latter part of last week for her new home in Salt Lake City, after a ten-day visit in Albany as the guest of Miss Elizabeth Irvine. The much-feted guest was the inspiration of several charmingly informal affairs of last week. On Wednesday evening Mrs. P. A. Young and Mrs. Harry B. Cusick entertained informally, music and knitting being the main diversions of the evening. Mr. and Mrs. J. Clem Irvine extended the hospitality of their home Thursday evening, a musicale being the occasion.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of

Out of the Trenches for a Breathing Space

"They Are Our Boys; Get Ready, Everyone, for a Rush!"

The long train of freight cars whined and grumbled as it strove to stop. In the doorway of a great low building a white-capped and gowned woman released a sunny smile and, turning, so her voice carried into the building, called out, "They are ours; get ready for a rush."

Just how she could tell they were "ours" would be hard to explain, for at the moment she spoke hundreds of the dirtiest, grizzliest men a woman ever saw came fairly tumbling out of the freight cars. A moment more she was welcoming this muddy rabble with a laugh and cheering words.

Inside the building there were more women, all spick and span in white, with faces beaming, handing a good "home cooked" food over spotless tiled counters. Some of the boys fairly ran for the food; others went into the long batteries of bunks, throwing out the vermin ridden clothes to be sterilized while they scrubbed their bones back to a healthy glow.

What luxury it all was—food, tables, chairs, things to read, games to play, paper for writing, a barber shop, a movie theater and good, clean beds! No one ever thought that these hap-

py, smiling women might be tired, nor were they tired then, even though all day long they had been serving train after train of French and English troops, literally thousands of them. Yet what did that matter? For these boys that came at the end of a long day—these boys are "ours."

If your boy is in France you may be sure he has a song of praise for the fine women at work in the railway canteens of our own Red Cross, for at every important railway junction there is one of our Red Cross canteens and at each canteen there are 18 women—real, true American women.
