

"I'll take \$5.00 worth of War Savings Stamps; I saved that by buying this Congoleum Rug."

(That's PATRIOTISM and ECONOMY.)

A Congoleum rug is one of the most satisfactory floor-coverings that can be procured. Of its own accord it holds to the floor, wears extremely well; they don't slip about nor do they soon wear out.

It is a floor-covering that is both waterproof and sanitary, easily kept clean, and they will beautify and room in the house.

You will understand why we so highly recommend them when you see them. All sizes—and priced accordingly:

\$2.25 to \$17.00

We have also a full line of LINOLEUM; many, many beautiful designs. Carefully laid by experienced workmen.

EASTBURN BROS.

If in these days of high prices you found a butcher who charged 20 per cent less than the others you'd patronize him, wouldn't you? It would be worth considerable effort to save that much every week on household expenses.

Well, here's a way you can save 20 per cent on your meat bills without trouble, without exertion.

How? By means of electric range cooking—the cleanest, easiest, surest way of cooking food just right.

Electric Ranges are so simple in operation that a 12-year-old child can prepare a superior meal with little instruction.

And that 20 per cent saving on meats—is due to the construction of the oven, which prevents evaporation and retains the juices. You not only save 20 per cent, but the meat is more delicious, appetizing and wholesome.

We have a special cooking rate—and a time limited proposition which you can't afford to overlook.

WAR DEPLETES BLOND RANKS OF GAY PARIS

PARIS, Oct. 28.—Another horror. Many of the pretty blond girls one used to see in Paris are becoming brunettes. At least, The Daily Mail of Paris says so, as ensues:

"The necessities of war chemistry have led to a great scarcity of peroxide of hydrogen, used for producing the golden tint known as peroxide blond. Many women who were blond in opposition to the intentions of nature have had to come out in their true colors."

MERCY MUNITIONS NEEDED IN TRENCHES

Lieut. Coningsby Dawson, Fighting Author, Makes Stirring Appeal for Y. W. C. A.

Lieut. Coningsby Dawson, who wrote "Carry On," says of the war work which the Y. W. C. A. is doing: "You at home cannot fight with your lives, but you can fight with your mercy. The Y. W. C. A. is offering you just this chance. It garrisons the women's support trenches, which lie behind the men's. It asks you to supply them with munitions of mercy that they may be passed on to us. We need such supplies badly. Give generously that we may the sooner defeat the Hun."

What Lieut. Dawson says of the Y. W. C. A. he might have said of all the national organizations which are coming together for the biggest financial campaign that organizations have ever headed. All the \$170,000,000 to be raised by the seven great national organizations the week of November 11 will be used to garrison and supply the support trenches behind the lines. They are the Y. M. C. A., the Y. W. C. A., the National Catholic War Council, Jewish Welfare Board, American Library Association, War Camps Community Service and Salvation Army.

American girls in various uniforms mingle strangely with picturesque Brittany costumes in France. The American Y. W. C. A. has a hostess house in Brittany where the Signal Corps women live and a hut where the nurses spend their free time. Both these centers are fitted with many of the comforts and conveniences of home.

"At a tea given at the nurses' hut one Saturday afternoon," writes Miss Mabel Warner, of Salina, Kansas, Y. W. C. A. worker there, "there was an odd gathering—one admiral, a bishop, a Presbyterian minister, a Roman Catholic priest, a doctor, an ensign, one civilian and myself."

First Victory Boy's Work.

"Say, I'm wise to you, all right," a Western Union messenger boy whispered to one of the directors of the United War Work Campaign in the New York headquarters. The director's desk had only just been moved in and the work of the big drive had hardly begun.

"I'm onto your stunt," the boy went on as he swung a grimy fist over the desk; "you're going to give us fellows that ain't old enough to go to war a chance to earn an' give to back up a fighter an' help win the war. Listen: I'm in on this."

The crumpled \$5 bill he dropped on the desk made him the first of "a million boys behind a million fighters" who are to be lined up as Victory Boys during the week of the drive.

There will be a division of Victory Girls, too, and every boy and every girl enrolled will have to earn every dollar he or she gives to the war work fund.

Back of the Firing Line

Modern war conditions demand that our armies must have behind them national solidarity, the coordination of all the vast activities and an industrial army many times greater than the Nation's fighting forces.

The Nation's capital is linked with all these varied activities by the toll and long distance lines of the Bell System. Thousands of miles of special wire systems have been turned over to the Government for its exclusive use. Switchboards in the Government departments at Washington have been enlarged and new ones installed. Right of way is given to Government business over all commercial lines, so that the Government chiefs may keep in constant touch with every phase of the Nation's great task and direct its progress intelligently and effectively.

In organizing the military activities of the country, the Government has had the effective cooperation of the Bell Telephone System, which even in peace times reached 70,000 communities and now extends to the headquarters of every Army Department and Naval District in the United States.
