

You have been wondering whether your baby can sit up well enough to sit in a High Chair—

haven't you?

Won't your little one be cute sitting up all by himself in a High Chair all his own—

"Like a Monarch on his throne."

There's a time for everything; so says the Good Book; 'tis true, too.

Now is the Time to buy the HIGH CHAIR

We have a large selection made of Wicker, Oak, Ash and Fir; in models of various types and a style that will look well with whatever furniture you have in your home.

PRICES: \$2.50, \$2.65, \$3.00, \$3.25, \$3.75, \$4.00, \$4.25, \$4.75, \$5.00, \$5.25, \$6.50

Eleven different prices in a COMPLETE stock.

FISHER-BRADEN CO

Returned Home—

Mr. and Mrs. D. S. Smith returned home last night from Vancouver, where they were called by the illness of their son Merrill Smith, who had pneumonia. Merrill is now better and will be out again soon.

Moved to Junction City—

Mrs. Sade Chesbur and son Derwin left yesterday for Junction City to make their home.

Has Flu—

Dave Patterson of the postoffice is at home today sick with the grip.

Barber Shop Remodelled—

J. K. Weatherford is having his store room occupied by Vireck's Barbershop remodelled. They will be ready for business on Friday morning next.

Patience Rewarded—

The patience of the Albany ladies is now rewarded; the necklace so long expected is now on display at Hamilton's. See Window No. 5.

Primitive Submarine.

In the early part of the seventeenth century a submarine was successfully navigated in England from Westminster to Greenwich.

The inventor and navigator—Cornelius Drebel, a Dutchman—enjoyed the patronage of James I, and the credulous king was only prevented from taking part in a submarine trip by the assurance of some of his courtiers that Drebel was "in league with Old Nick."

The boat was so constructed that "a person could see under the surface of the water, and without candle light, as much as he needed to read in the Bible or any other book." It was also propelled by oars.

High Society.

Miss Hichon-Fraser—My parents' wedding was very exclusive, dignified. They were married in the 13th Church Around the Corner, in New York.

Miss Posten-Sassy—Pooh, that's nothin'. Mine went up in a balloon at the state fair and took the preacher with 'em.

EASTERN OREGON DEMANDS A NORMAL SCHOOL

Normal Schools Held Proper Reconstructive Institutions After the War

Representatives of The Dalles, Pendleton, Baker and LaGrande, for the purpose of discussing the normal school proposition which appears upon the ballot on November 5th, met in LaGrande this week. These people represent all of the country east of the Cascade Mountains.

A survey of the school situation discloses that no institution of higher learning or for the training of teachers exists in the great territory east of the mountains. Regardless of where the normal school will be built, all the people interested have made it plain that sectionalism does not govern the question as to whether a normal school should be established in Eastern Oregon. The future welfare of the boys and girls of this great section should be the controlling force that should govern the voters in making their choice. To a man with a family living in Eastern Oregon, it is an individual question: "Shall my children have properly trained teachers when they start out to get their education, to use during the balance of their lives?" "Will my children get started right so that as they progress in the grade schools they will not have to take two years to pass one grade?" These are vital questions, and only the parent whose child has failed in some course in school can realize the difference between having a trained and an untrained teacher when the child starts out.

Statistics show that in the great state of Oregon it costs the state at least \$400,000 yearly to re-educate the children who have failed because of incompetent teachers. The monetary consideration, however, is only incidental. The great consideration is that when a child has failed and the next year is compelled to take the course over again, you have thereby taken from that child's life one full year which neither you nor anyone else can give back to him.

We have over 6,000 teachers in this state. Those who leave the teaching profession leave vacancies which must be filled. These vacancies run about 1,000 yearly. The one normal school in this state will furnish from 150 to 250 trained teachers per year. The balance of the vacancies must be filled either from other states or with untrained teachers. The fact is that 90 per cent of these vacancies are filled with untrained teachers. Can we afford to allow this last year by our boys and girls who have failed, to be charged up against us for not trying to cut down this 90 per cent? The establishment of two more normal schools in the state of Oregon is a first step towards supplying this deficiency.

Eastern Oregon is particularly out of any advantages of a normal school. At the present normal school at Monmouth there are only 24 students from the 16 counties of Eastern Oregon. This number of students at our Monmouth Normal school is only about one per cent of the requirement to keep the teaching force of this part of the Inland Empire up to standard. In comparing Eastern Oregon with the Willamette Valley, we find that all the state institutions of learning are situated in that valley. In addition to this, the Willamette Valley has numerous institutions of learning established by religious denominations and private endowment. These institutions of learning serve as centers of education and culture for those localities, while in all of Eastern Oregon as well as Southern Oregon, there is not one such institution.

Certainly the people of Eastern Oregon should demand the establishment of normal schools so that they can have educational facilities and centers of culture. Every man and woman, if they have the interest of the boys and girls at heart, who lives in Eastern or Southern Oregon, should vote for the normal school measure. The good people of Portland and Multnomah county have heretofore generously supported the Eastern part of the state in its development, and we earnestly appeal to them again to give this measure a good vote, because it vitally affects the development of this part of the state, which is tributary to the great metropolis. Furthermore, inasmuch as the legislators of Eastern Oregon have supported the institutions of the state located in Western Oregon, (and we are justly proud of them), we appeal to the voters of Western Oregon to support us in our attempt to progress upon the same great plane as they.

President Wilson says: "Next to the duty of doing everything possible for the soldiers at the front, there should be, it seems to me, no more patriotic duty than that of protecting the children, who constitute one-third of our population."

Our children will be our future citizens. Upon them will fall some of the reconstruction work after the war. The protection of our children demands proper educational facilities.

The preparation of proper educational facilities for our work after the war is necessary. A vote for the normal schools, as placed upon the ballot, is one of the basic steps of this work, but will fit in properly with the reconstruction work which will then be necessary.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, ran, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application of two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for any cure, mitigation or prevention of disease.

THE EYES are the "Windows of the Soul." Is your soul well-lighted? There may be curtains over your eyes. Your vision may be indistinct, but you have never looked through other windows. Your eyes make the world what it is to you.

Let Optometry assure you that your vision is perfect, or supply lenses to make it so.

That good Gravely taste!

Real Gravely is the common-sense chew for men. It is economical. A man gets his tobacco satisfaction out of a smaller chew and fewer of them. The good Gravely taste lasts a long while. Two or three small squares of Real Gravely stays with you

longer than a big hunk of ordinary plug. Each piece is packed in a pouch. These are the plain facts about Gravely Plug Tobacco.

It goes further—that's why you can get the good taste of this class of tobacco without extra cost.

PEYTON BRAND Real Gravely Chewing Plug 10¢ a pouch—and worth it P. B. GRAVELY TOBACCO CO., DANVILLE, VA.

If in these days of high prices you found a butcher who charged 20 per cent less than the others you'd patronize him, wouldn't you? It would be worth considerable effort to save that much every week on household expenses.

Well, here's a way you can save 20 per cent on your meat bills without trouble, without exertion.

How? By means of electric range cooking—the cleanest, easiest, surest way of cooking food just right.

Electric Ranges are so simple in operation that a 12-year-old child can prepare a superior meal with little instruction. And that 20 per cent saving on meals—is due to the construction of the oven, which prevents evaporation and retains the juices. You not only save 20 per cent, but the meat is more delicious, appetizing and wholesome.

We have a special cooking rate—and a time limited proposition which you can't afford to overlook.
