FAMOUS "FIELD OF BLOOD"

Said to Be Spot Judas Purchased
With the Silver for Which He
Sold His Master.

Just outside the walls of Jerusalem, in the Valley of Hinnom, is a rocky plain known as the Acedama or Field of Blood. It is the potter's field, purchased with the 30 pieces of silver for which Judas sold his master. Here for centuries visitors to the holy city, lying while on their pilgrimage found a resting place.

Gray and barren, it is a desolate spot, solitary but for the chance visitor and a few withered gray-clad monks from a nearby monastery. For a small fee, one of these ancient recluses will show you the sights of the place. Curves and underground passages, honeycombed with tombs, are cut in the rocky field. Your guide leads you down age-worn steps, into perhaps in the sixth century, into crumbling halls. His torch casts flickering umbrage shadows on the damp gray walls. The place seems to resent your intrusion; it is the "place of sleep," the hall of the dead. On one side is the tomb of some warrior monk who followed the fortunes of Richard Lion Heart of England to the holy land, dying at the very gates of the city his master had hoped to conquer. He must have died penniless, too, as so many of these zealots did, else his bones had not rested in the potter's field.

Near Acedama is a ruined charnel house, said to have been built by the Crusaders for their dead. It is a tumbling ruin, nearly thirty feet long by twenty wide, with one side of tumbled rock. Beneath it are two of the largest caverns, their rock sides pierced with tombs and shallow graves. In the roof of the ruin are holes through which the bodies of the dead were lowered.

The Field of Blood is on the north-eastern slope of the Hill of Evil Council, where tradition says the villa of Caiaphas stood, and where the chief priest and elders plotted the execution of Jesus.

CATHOLIC BOYS JOIN
WAR WORK CAMPAIGN

Girls, Too, Will Stand With Them
Behind Every Fighter
at the Front.

To put behind every Catholic fighter in France the support of one boy or girl in every parish throughout the United States is the plan of the National Catholic War Council for backing the Victory Boys' and Victory Girls' "Earn and Give" Division of the United Work War Campaign to raise \$170,000,000 "for the boys over there" during the week of November 11-18.

Through diocesan, county and parish organizations, the rallying of one youngster for every man who has gone to war in every community is already under way. By their own earnings, and not by contributions, it is expected that these sturdy little sponsors for the boys abroad will each raise at least five dollars for the joint welfare work of the Y. M. C. A., Y. W. C. A., National Catholic War Council, including the Knights of Columbus, War Camp Community Service, Jewish Welfare Board, American Library Association and Salvation Army.

Boys and girls in every Catholic parish throughout the United States are already being picked to represent each fighting man who has left their church for the front. In every home that flies a service flag little brothers and sisters, sons and daughters, are eagerly volunteering to look out for the share of their family fighter in the huge joint welfare campaign for all the boys abroad.

THROWS POLLEN OVER BEES

Nature's Use of the Mountain Laurel
Is One of Her Many Remarkable Devices.

Flopt and away go the little stamens of the mountain laurel and throw pollen over the bee which alights upon them. The naturalist sees here one of the most remarkable devices in all nature for compelling an insect to carry pollen. The lover of nature sees in the mountain laurel one of the most beautiful of the common woodland flowers, says Edward Digelow in "Boys' Life."

The corolla is saucer-shaped, with ten little pits near the edge, and tightly caught in each of these little pits is the anther at the end of the elastic filament. This natural thing seems to grow in an unusual manner, but do you know of any other plant that actually grows in distorted or strained position, or puts its own self in an uncomfortable and strained position from which it is glad to be released when the first insect comes along and sets it loose?

IMPINGED NERVES CANNOT TRANSMIT THE NORMAL NERVE STIMULI (life force) to the various TISSUES AND ORGANS of the body WHICH THEY SUPPLY;—WHICH RESULTS IN INCOORDINATION (lack of functional harmony) or SO-CALLED DISEASES as a natural sequence.

THE CHIROPRACTOR, thru palpation, aided by the X-Ray where necessary, ASCERTAINS THE CONDITION OF THE SPINAL COLUMN, as well as all other skeletal articulations, THEREBY LOCATING ANY ABNORMALITIES that interfere with the normal function of the nerves, and with the hands corrects any subluxations, thus giving NATURE an opportunity to again establish coordination—HEALTH.

YOU SAY—Oh, well, Chiropractic may be alright for some disorders, but it would be of no avail in MY case. I SAY—The disorder, whatever the name, may seem little or barely noticeable—PLAY SAFE and get rid of it before it grows up. FORTHOUGH AILMENTS are but little complaints grown up and gone to seed.

EXCUSE No. 2—Well, you say, Mine is chronic already.

That's all the more reason why you should discard it.

INVALIDS ARE NOT POPULAR—THEY ARE INVALID.

Not all, but many are invalids because they do not investigate and give Chiropractic an opportunity.

ROBUST HEALTH IS FASHIONABLE and it's a mighty good asset to have.

Which will you chance—Live with CHIROPRACTIC, as social outcast, or DIE IN STYLE WITH MEDICINE? For the benefit of the more obstinate cases, which under Chiropractic alone take a more protracted course of adjustments, I have had installed, as an adjunct to Chiropractic, Campbell's latest model X-Ray and Electro-Therapeutic coil, also Dr. Morse's famous Sine Wave Generator, to use in conjunction with the adjustments when indicated, and have found them very potent factors in aiding to restore to normal, cases of Paralysis, obstinate constipation, gastric and colonic stasis, obesity, a well as catica, lumbago, etc., etc.

If you are more concerned about your health than you are the various forms of treatments, "Pathys, Isms, Cults and Degrees stuck on the east side of the doctors' names, I INVITE YOU TO COME UP, and at least satisfy your curiosity, and if interested in my form of treatment, and in getting well, I will gladly, as best I can, explain the science and the methods pursued in correcting the CAUSES of the various disorders human flesh is heir to; THEN if you decide to give Chiropractic a fair trial and get started on the road to recovery, the end hoped for will have been accomplished, and if not all will be well anyway, for your curiosity will have been satisfied and my mission will have been performed and that without ONE CENT of cost to you.

BETTER HEALTH AND BETTER BABIES WILL MAKE A BETTER NATION. If interested in drugless obstetrics, I invite you to call—IT'S DIFFERENT and THERE'S A REASON. There are plenty of mothers who will gladly tell you the difference.

Confinement cases outside my regular clientele or that of accredited Chiropractors, not taken under less than five months' notice. This I do for the mother's and child's benefit and protection as well as the doctor's, for delivery to be as painless and normal as possible, requires the proper dieting and exercising on the part of the mother as well as the proper treatment, where indicated, on the doctor's part.
