HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Eat less meat if you feel Backachy or have bladder trouble—Take glass of Salta.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become over-worked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of seaking, stop eating meat and get about four ounces of Jad Salta from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will not sulk. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salta is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

FISHER-BRADEN CO

If in these days of high prices you found a butcher who charged 20 per cent less than the others you'd patronize him, wouldn't you? It would be worth considerable effort to save that much every week on household expenses.

Well, here's a way you can save 20 per cent on your meat bills without trouble, without exertion.

How? By means of electric range cooking—the cleanest, easiest, surest way of cooking food just right.

Electric Ranges are so simple in operation that a 12-year-old child can prepare a superior meal with little instruction. And that 20 per cent saving on meats—is due to the construction of the oven, which prevents evaporation and retains the juices. You not only save 20 per cent, but the meat is more delicious, appetizing and wholesome.

We have a special cooking rate—and a time limited proposition which you can't afford to overlook.

SHEDD NEWS NOTES

SHEDD, Nov. 5.—Special.—The school opened Monday morning after being closed for a week because of the influenza which was sweeping the community. Norma Farwell, daughter of Mr. and Mrs. H. J. Farwell, was brought to her home last week from the St. Mary's Hospital, where she has been for several weeks. She is reported to be improving rapidly. Edmund Crume, the son of Mr. and Mrs. Crume of Shedd, has been very low with a relapse of scarlet fever. He is reported better now, however. Mr. Painter, who lives near Fayetteville, fell about two weeks ago from an apple tree and hurt himself quite seriously. The doctors have not yet learned whether he was hurt internally or not. Mr. Painter is still confined to his bed. C. C. Arnold returned home from Fort McDowell, Cal., recently, where he was summoned for limited service. After being examined, he was found physically unfit because of poor eyes. On the way home he was taken sick with pneumonia which, when he reached home, put him in bed for eight days. He is now better and able to be out again, but looks rather pale.

A pretty good shower passed over this vicinity Sunday afternoon. The high school will have a Halloween party Friday evening, Nov. 1st, at the schoolhouse. Just high school students and friends are invited. Word was received here that Fort McDowell, California, was under quarantine for the Spanish influenza, in camp at one time, but they are believed to be getting checked now. Mr. and Mrs. Bill Sylvester have a big baby boy. Both mother and child are getting along fine. Miss Wilma Porter got off the southbound train Sunday noon. She was met by her father and mother, Mr. and Mrs. G. S. Porter, who took her home, where she will stay for some time. Miss Porter has been attending school in Portland for some time. The Shedd school began this week with a new teacher in the upper grade room. Mrs. Bailey, who was their former teacher, resigned and they now have Mr. Oscar Ingram of Lebanon. M. G. Coon, the Shedd postmaster who has been very ill, is reported to be just living this morning. Mr. Coon has been very sick for the past few months with paralysis. He is gradually getting worse and is now very low.

Miss Nellie Hart of Portland spent a few days at the home of her uncle, M. G. Coon, last week. BELGIAN RELIEF CLOTHING The used clothing donated by the people of Linn county for the destitute people of occupied Belgium and France, is on its way to Newark, N. J., from where it will be reshipped to Belgium, and should reach its destination by the latter part of the current month. It might be of interest to the donors to know that it required 55 packing cases to take care of the shipment; that by actual count there were 6,928 separate garments, together with 305 pairs of shoes, with a total weight of four tons. In the two drives for clothing Linn county has considerably over lapped its quota. The committee in charge desires to express its thanks to the people who so generously contributed; also to the heads of the various auxiliaries of the county, and numerous others, for their assistance. The committee in charge consisted of the following: H. S. Logan, Mrs. R. R. Wallace, Mrs. G. A. Flood, Mrs. Dr. Stark and Miss Nimmo. G. H. YOUNG, President, Linn County Chapter, A. R. C.

Government Issues Call For More Nut Shells More fruit pits and nut shells are needed. The government asks for 1,000,000 pounds daily. Several months ago the governor issued an appeal to the people of the state to collect these pits and shells. Official communications request that when a barrel full is on hand they be sent in to the collecting station. The chemical warfare department of the army proposes that a Gas Mask Da ybe observed for the gathering of the fruit pits and nut shells, as the people do not realize the importance of this work. Shells and pits may be left at the Red Cross store or at any of the grocery stores. A shipment will be made next week.
