

Bake in the Care Free Way

Baking days can be days of worry and fatigue, or they can be days of gratifying accomplishment.

As any good cook will tell you everything depends on the range. There are some ranges that are not worth the wood you burn in them. Then there are others which bake well, heat well, burn but little fuel and last a long time.

Such an one is the famous RANQUET RANGE. Come in and get acquainted with it.

The body is made of Wellsville Polished Steel; it has Nickel Base, enameled splashers and oven thermometer. Water reservoir can be fitted up in two different ways.

\$43.00 TO \$85.00

If in these days of high prices you found a butcher who charged 20 per cent less than the others you'd patronize him, wouldn't you? It would be worth considerable effort to save that much every week on household expenses.

Well, here's a way you can save 20 per cent on your meat bills without trouble, without exertion.

How? By means of electric range cooking—the cleanest, easiest, surest way of cooking food just right.

Electric Ranges are so simple in operation that a 12-year-old child can prepare a superior meal with little instruction. And that 20 per cent saving on meats—is due to the construction of the oven, which prevents evaporation and retains the juices. You not only save 20 per cent, but the meat is more delicious, appetizing and wholesome.

We have a special cooking rate—and a time limited proposition which you can't afford to overlook.

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

BUSTER BROWN SHOES for BOYS & GIRLS

HAMILTONS

not being out of the fight, and their spirits are as high now as their morale was low when they were taken.

The Hungarians are bright-looking fellows for the most part, with good faces, but with bodies that are shriveled from hunger and privation. They act like boys, now that responsibility has been taken from them. They are glad to talk about anything, except war, about which they joke.

The principal interest of the Hungarians in the pens now is whether or not they will be sent to America until the war is over. All want to go to America, most of them to stay. They are never vindictive, and take the war as a gambling proposition, which they are about to lose. Harbor, no hate themselves, these Hungarians assume they will be welcome, and can find friends anywhere but in Germany.

German officers still maintain their arrogant bearing, though when they are frank enough to speak honestly their remarks show they are weakening in their confidence. However, they still seem militaristic. You fall to find a note of sympathy in talking to them. Their overbearing attitude prevents any understanding.

The German soldier is a different proposition entirely now. He has given up that belief instilled in him by of-

Modart Corsets Front Laced

THE MODART CORSET is essentially a figure-shaping garment. It is beautifully and symmetrically designed to train the figure into lines of beauty and to maintain those lines when once obtained.

To this end every woman should have at least two corsets, for all corsets should be laundered from time to time.

MODART Corsets are constructed of materials that will stand constant laundering, without losing their shape. The boning and clasps have a rubberized covering that renders them impervious to water. These features in the MODART are well worth considering for many corsets are made with uncovered steels or paper covered ones. Water melts the paper. Some corset cloths are so full of starch and other filling matter that they lose their shape when laundered. Not so with the MODART. It retains its shape until worn out. MODART prices are moderate, considering the value delivered, and the prices range from those for the plainest of cottons to the fanciest of silks.

The Model Illustrated \$6.00 Others from \$4.50 to \$12.00

CITY NEWS

Returns to Portland—
Miss Lillie Brenner has returned to Portland after a visit at the home of Fannie Brenner.

To Nurse at Hospital—
Miss A. L. Hentges came down from Harrisburg this morning to nurse at St. Mary's hospital.

Returned to Portland—
Louis Fox returned to Portland this morning. He came up yesterday on business.

Former Albany Man Dies—

On Trial Jury—
H. D. Haight went to Portland this morning to serve on the trial jury.

Went to Los Angeles—
Rev. W. P. White left last night for Los Angeles on a business trip.

Back of the Firing Line

Modern war conditions demand that our armies must have behind them national solidarity, the coordination of all the vast activities and an industrial army many times greater than the Nation's fighting forces.

The Nation's capital is linked with all these varied activities by the toll and long distance lines of the Bell System. Thousands of miles of special wire systems have been turned over to the Government for its exclusive use. Switchboards in the Government departments at Washington have been enlarged and new ones installed. Right of way is given to Government business over all commercial lines, so that the Government chiefs may keep in constant touch with every phase of the Nation's great task and direct its progress intelligently and effectively.

In organizing the military activities of the country, the Government has had the effective cooperation of the Bell Telephone System, which even in peace times reached 70,000 communities and now extends to the headquarters of every Army Department and Naval District in the United States.
