If in these days of high prices you found a butcher who charged 20 per cent less than the others you'd patronize him, wouldn't you? It would be worth considerable effort to save that much every week on household expenses.

Well, here's a way you can save 20 per cent on your meat bills without trouble, without exertion.

How? By means of electric range cooking—the cleanest, easiest, surest way of cooking food just right.

Electric Ranges are so simple in operation that a 12-year-old child can prepare a superior meal with little instruction.

And that 20 per cent saving on meats—is due to the construction of the oven, which prevents evaporation and retains the juices. You not only save 20 per cent, but the meat is more delicious, appetizing and wholesome.

We have a special cooking rate—and a time limited proposition which you can't afford to overlook.

THE Best Advertisement in the World

IT IS THE TICK of the Clock.

It says only one short word, but it says that word over and over.

Here the tick is loud there low.

But always millions on millions of clocks are saying it.

It never stops.

It speaks to a baby's ears, and to the dying hours of an old man.

It speaks in time of joy; in time of grief; in time of idleness, or struggle and stress; in time of peace, or time of WAR.

It never stops.

Always it is telling the old, old story of the clock, "Time Flies."

Always it is repeating the stern lesson of life—"The World Forgets."

It never stops.

And it has made the clock the best known thing in all the world.

Such is the power of reiteration.

Such is the power of persistence.

Such is the power of constancy.

Call the advertising roll of honor, the world-famous advertising, alive to answer.

None ever stopped. All have told their story over and over, and still are telling it.

Advertising stopped is advertising dead.

Advertising brought back from the grave must foot again the long, old road from the very beginning.

NOW is the time to advertise—the only time.

Advertise tomorrow when tomorrow is NOW

Listen to THE TICK of the clock, as it tells you: "Time flies. The world forgets."

NOW is the time to advertise.
