Fisher-Braden Co.

When a competition was entered by 15 girls and 15 men in Osaka, great speed was not expected. But K. Oriuchi of the Kihara Copper Co., attained 76 characters a minute in a business letter, and of 54 characters in copying articles from the financial page of the Osaka Asahi, or Morning Sun. In both contests Miss Komori Mayeda of the Sumitomo bank was runner up on the infernal machines, with 62 and 49 characters respectively.

Many Diplomats Will Attend Peace Conference

AMSTERDAM, Nov. 29.—U. P.—The Cologne Gazette says the English, French and American representatives will soon arrive in Berlin to discuss the armistice conditions.

New England Troops First to Return

PARIS, Nov. 29.—U. P.—The 78th division, composed of New England national army corps, will be the first combat troops to leave for home from France's battlefields.

Nerve and Eye Strain.

Many nervous as well as other diseases are caused by incorrect illumination. The eye is a subject of prime consideration in connection with our health and happiness. Eye fatigue spoils the disposition; as that is one of the conditions given for inefficient work, we find here again a reduction in efficiency and a cause for more loss of the workman's time. The first loss was mechanical, the second is physical; both, when reduced to a dollar-and-cents basis, show a large percentage over the cost of lighting that would be required to eliminate them. As judgment is dependent upon perception, and perception upon the sight, then the laborer, to be efficient, must be able to see fine details and small objects at close range with sharpness and distinction, to distinguish objects at a distance with accuracy, and to have clear perception of all objects in the intermediate space.

Famous Forth Bridge.

Sir John Fowler and Sir Benjamin Baker, both Englishmen, were the engineers who designed the great Forth bridge in Scotland, and the building was done by several large firms, of steel structural workers, under their supervision. The outside length of the bridge is 8,068 feet, the central cantilever occupies 1,620 feet, and the two side cantilevers 1,514 feet each. The roadway of the bridge at high water is 150 feet. The bridge was 17 years in building and was opened in March, 1890. The Forth bridge is much narrower than the Brooklyn bridge, but it exceeds it 25 feet in span and is considerably longer in its overall length.

Great Sea of Wheat.

A sea of wheat replacing a sea of water, 20,000 acres in one tract bringing forth the cereal of which Uncle Sam and his allies in the world war are in such great need, is a transformation accomplished on what was overgrown land near Sacramento. The huge tract formerly covered with the flood waters of the Sacramento and the American rivers lies in a fertile basin of some sixty-four thousand acres, most of which has been reclaimed and turned to agriculture through the efforts of the federal and state government, at a cost of millions of dollars.

Dispute Between Chile and Peru Is Still Unsettled

NEW YORK, Nov. 29.—U. P.—The dispute between Chile and Peru is not settled. No amicable agreement between the two republics is in sight. This information is vouched for by the Chilean consul general. Both countries are, however, quiet at present.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its
Natural Color, Gloss and
Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrous. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though laudable, is an easier way to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not stuffy, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and lustrous.

TEST FOR YOURSELF
Korker Puncture Cure
Drive nails in tires treated with Korker Puncture Cure—pull them out and with one revolution of the wheel you will find the puncture instantly permeated and sealed. Buy the Korker Puncture Cure at any auto supply store. Write for details. STANDARD TIRE & AUTO SUPPLY, 54 3rd St., Portland, Oregon.

HAMILTON'S

Peace on Earth Good Will to Men

If ever there was a Christmas when this sentiment prevails, it should be this Christmas of 1918, and so everyone will welcome a means of expressing this thought: "AWAY WITH GLOOM AND SORROW.—LET HAPPINESS ABIDE." A gift to your friends is your way of expressing a lasting goodwill. Let them be useful and abiding.

HAMILTON'S

SOCIETY

BEATRICE SANDERS
Society Editor
Bell 481-J.

THE THANKSGIVING Season of this year has been an unusually joyful one. Although gaiety prevailed, most of the social functions were of a smaller size, family gatherings predominating. Many Thanksgiving dinners were given, and out-of-town guests entertained.

Mrs. Rollin Hackleman charmingly presided as hostess this afternoon to the members of the Neos Nymph club. Chrysanthemums, in keeping with the yellow and white color scheme, prettily adorned the room where the guests gathered to spend an afternoon of social diversions. Light refreshments were served at the

afternoon's close. The two new members were present at this time: Mrs. Olga Nebergall and Mrs. A. B. Wilson.

Dancing, as one of the most popular diversions, shared in this week's gaieties and was enjoyed on Wednesday evening by a crowd of the younger set. The Knights of Pythias Hall was the scene of this informal and jolly affair. Miss Francis Haas was pianist for the evening.

One of this week's dinners was presided over by Mr. and Mrs. Rollin Hackleman, this occasion being a family affair. Chrysanthemums—the season's flower—were used to decorate the table.

A delightful dinner party will be an event of this evening given by the Beta Gamma girls at the home of Ha-

zel Hall for the pleasure of Miss Ruth Rawlings and Miss Helen Grigby, who are home from O. A. C. for the week-end.

The charming appointments of the table will be completed with a centerpiece of the season's flowers.

At the home of Mr. and Mrs. Morris Dowd, on Thursday, a Thanksgiving dinner was enjoyed. Large yellow chrysanthemums centered the table where places were arranged for Mr. and Mrs. Homer Dowd, Mr. and Mrs. Roy Dowd.

One of the most charming of this week's dinner parties was presided over by Miss Ruth Rawlings when she entertained Thanksgiving in honor of the birthday of her guest, Miss Daisy Ernst. The prettily decked table was aglow with carnations, carrying out the red color scheme. Among the guests were Miss Virginia Smith.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink
hot water each morning
before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried, some days headachy, dull and unstrung; some days really incapacitated by illness?

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anemic-looking souls with puffy, muddy complexion we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of "washing out" the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much in the drug store, but is sufficient to demonstrate to anyone its cleansing, sweetening and freshening effect upon the system.

NOTICE OF SALE OF GOVERNMENT TIMBER

General Land Office, Washington, D. C., November 14, 1918.

Notice is hereby given that subject to the conditions and limitations of the Act of June 9, 1916 (39 Stat., 218), and the instructions of the Secretary of the Interior of September 15, 1917, the timber on the following lands will be sold Jan. 2, 1919, at 10 o'clock a. m., at public auction at the United States land office at Roseburg, Oregon, to the highest bidder at not less than the appraised value as shown by this notice, sale to be subject to the

approval of the Secretary of the Interior. The purchase price, with an additional sum of one-fifth of one per cent thereof, being commissions allowed, must be deposited at time of sale, money to be returned if sale is not approved, otherwise patent will issue for the timber which must be removed within ten years. Bids will be received from citizens of the United States, associations of such citizens and corporations organized under the laws of the United States or any state, territory or district thereof only. Upon application of a qualified purchaser, the timber on any legal subdivision will be offered separately before being included in any offer of a larger unit.
