TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens so Naturally Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

NOT BECAUSE it is an honored custom but because of the Sincerity of our Appreciation, we take this opportunity to thank you for the part you have played in our business prosperity the past 12 months, and we wish you a Happy and Prosperous New Year.

Are You Open-Minded?

The average American is open-minded.

American business is conducted by true Americans of vision, open-minded men who believe in their country and strive to meet their country's needs. The men in the packing industry are no exception to the rule.

The business of Swift & Company has grown as the nation has progressed. Its affairs have been conducted honorably, efficiently, and economically, reducing the margin between the cost of live stock and the selling price of dressed meat, until today the profit is only a fraction of a cent a pound—too small to have any noticeable effect on prices.

The packing industry is a big, vital industry—one of the most important in the country. Do you understand it?

Swift & Company presents facts in the advertisements that appear in this paper. They are addressed to every open-minded person in the country.

The booklet of preceding chapters in this story, of the packing industry, will be mailed on request to
