FRED DAWSON'S DRUG STORE

A little chew of Gravel helps the
Observation Office through many a
hard hour.

He Will Welcome a pouch of Real GRAVELY Chewing Plug

Any gift from the folks back home means a lot to the boy.

When you send him tobacco, let it be good tobacco—tobacco worth sending all that long way—the flat, compressed plug of Real Gravelly.

Give any man a chew of Real Gravelly Plug, and he will tell you that's the kind to send. Send the best!

Ordinary plug is false economy. It costs less per week to chew Real Gravelly, because a small chew of it lasts a long while.

If you smoke a pipe, slice Gravelly with your knife and add a little to your smoking tobacco. It will give flavor—improve your smoke.

SEND YOUR FRIEND IN THE U. S. SERVICE
A POUCH OF GRAVELLY

Dealers all around have every 10 in 10 pouches. A 5c stamp will put it into his hands in any U. S. Service Camp or Hospital of the U. S. A. Even "over there" a 5c stamp will take it to him.

Bridging the Gap From Steer to Steak

Live stock is raised on the farms and ranches of the West.

Meat is eaten in the large cities of the East, and by our boys in France—thousands of miles away.

The day of transporting live animals from ranch to seaboard and overseas has passed. There was too much waste. The modern packer locates his large and specialized plants in the producing regions. He ships the dressed beef in refrigerator cars, and holds it in his own refrigerated branch warehouses until delivered to the retailer. For shipment to foreign ports, he transfers the meat to refrigerated ships.

By means of his nation-wide organization the modern packer maintains a continuous flow of meats to all parts of the country, so that each retailer gets just the quantity and quality of meat his trade demands, and at the time he wants it.

Swift & Company recently shipped 1,000 carloads of meat products in one week to our Armies and to the Allies.

Bridging the gap from ranch to consumer can be done successfully—and at low unit costs and profits—only by large business organizations.

Swift & Company's profit on meat, always so small as to have practically no effect on prices, is now limited by the Government to about 2 cents on each dollar of sales.
