FRED DAWSON'S DRUG STORE

LEFT BOTTLE AS SENTINEL

And Two Weary Privates Had Perfectly Good Explanation of Where They Got the Champagne.

About 10 o'clock on the morning of the brigade's arrival at a beautiful little town that looked under the morning summer sun, as if it might be a million miles from the battle front, the peaceful scene was accentuated by two boyish privates of squad 17 size, obviously strays from their company, at the side of the street just around the corner from headquarters.

One was sleeping, as only a soldier who has seen five days of battle can sleep, his head dangling carelessly over a mud-stained pack. The other had one shoe off, and was regarding ruefully, but rather listlessly, his capital wound of battle, a blistered foot. Before them, as conspicuous as the top sergeant at morning roll call, stood in its labeled and finessed glory, an empty champagne bottle. Every rank from sergeant to brigadier general passed them, tried to look shocked, and failed.

By-and-by the second private stretched his foot over the curbing and went to sleep, too. It wasn't until afternoon that a noncom, rounding up stragglers, awoke them.

"Where did you get that champagne?" asked the noncom (with motives beyond question).

"Well," explained the smaller of the pair, "we hadn't had anything to eat but iron rations for five days, and not much of that, then we lost our outfit, and when we landed here we started out to buy something. The only thing on sale in the whole town was a bottle of champagne, so we bought that."—Stars and Stripes.

Perseverance Does It.

"It's the allies' perseverance that won this war," said Senator Lewis.

"The allies suffered defeat after defeat, but from each defeat they learned something."

"It's like the advice which the editor of the Cincinnati Scimitar gave to an unlucky wooer who had been rejected by seven girls in turn. The editor wrote:

"Unlucky Wooer—Go ahead. Don't be discouraged. Never say die. You must have learned a lot by what you have gone through. Strives us, you must hold something like a record. Well, stick all your experience together and make love to the next girl who comes round and takes your fancy. If she don't reciprocate try another. Remember, you only want one girl to say 'Yes' and she'll probably love you for it."

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water.

Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.

How Is Your "Culebra Cut"?

The Panama Canal is a clear passageway as far as the Culebra Cut. But Gold Hill has a way of slipping into the cut. And until doctors can clear the channel, the industrial schedule of the world is out of gear.

How about your own canal? The intestinal canal is a clear passageway as far as the large intestine. There, if you become constipated, waste matter is allowed to stagnate. It becomes unhealthily dry and undergoes abnormal fermentation and putrefaction. Germ activity is increased. Your whole system is out of gear. Result, the production of irritating and poisonous substances, which are absorbed into your blood and carried all over your body, liable to produce disease anywhere. The longer such stagnation is allowed to exist, the harder it is to clean out the canal. 90% of human disease originates in the "Culebra Cut."

If engineers tried to blast out the slide from Culebra Cut they would have more slides to cope with. If you try to blast out accumulated waste from your Culebra Cut with pills, salts or purges, you will increase your constipation—and next time you will have to take stronger medicine in a larger dose.

You can't dredge your canal.

You can clean it out with Nujol.

Nujol softens the mass, and supplies the intestinal canal with sufficient moisture to replace deficient mucus. It causes the obstructive waste matter to pass gently out of your system at a regular hour, absorbing and removing the poisons as it goes. Nujol regularity keeps the traffic of your mind and body operating on schedule.

You admire the Panama Canal system. Why not safeguard your own? Your druggist has Nujol.

Warning:

NUJOL is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.

You Can Do Better

at the J. C. Penney Co. store than any place I know of—even the mail order houses. That's the reason I drove 25 miles today to do some trading. A man made this remark in our store Saturday. He brought his family and fitted them out from head to foot and according to his own word he saved from 25 to 33 1-3 per cent on the bill.

You can do the same—Think it over—197 stores to serve you.
