WAR SPIRIT TO MAKE PEACE

In one of his speeches in England, President Wilson told of the remark of a friend of his, "When peace is conducted in the spirit of war, there will be no war."

And isn't it the truth? If nations gave to the promotion of peace one-hundredth as much devotion, effort and money as they give to the prosecution of wars once started, surely there would be mighty few wars.

The whole world knows how the statesmen of the allied nations found a practical way to pool their own thinking machinery and their countries' resources when it came to a question of international unity or destruction.

A MINISTRY OF THRIFT

The British government is consid-

ering the establishment of a new administrative department called a "ministry of thrift." It is intended to encourage national saving and make permanent the thrifty practices adopted by the British people during the war.

If this is a good thing for Britain, it is surely a good thing for America. An English official is quoted as saying: "Great Britain needed to learn the lessons of thrift and economy, but our American friends needed it much more."

A definite, persistent campaign for continued economy, carried on under the direction of a governmental department, would surely help our people to make up any such deficit in the lessons of war.

PAYING UP

Congress, it seems, authorized expenditures for fighting Germany to the tune of \$55,000,000,000. The signing of the armistice made possible various reductions bringing the total down to something like \$33,500,000,000.

This is more than \$300 for every man, woman and child in the United States. If the paying of this vast bill were divided according to population instead of according to taxpaying ability, how many families would have to work and pinch for years to foot the bill!

But even so, would any true American begrudge his slaving and pinching and paying? This is a nation of good sports, and gladly will its citizens pay the piper for making the Germans dance!
