"THE FLU BAN"

In accordance with the request of the authorities the management of this store will strictly carry out the ordinance, regulating mercantile establishments, and will do their utmost to protect the health of the public, both customers and clerks.

This store is well heated and a perfect ventilation makes this place a really safe place in which to shop. The authorities have asked us to keep people four feet apart, which means 32 square feet to a person, which would allow 1,110 people to congregate in this building. We, however, desire to do better than that, and shall limit each person to 100 square feet, thus allowing no more than 370 people to be in the store at any one time.
