Made from Coconut meat, churned in milk, absolutely pure. You will like it on hot biscuit. TRY IT ONCE

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel
clean, sweet and fresh
and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of Limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphate hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of Limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

The Prince of Wales is a poor dancer. Apparently the quality of mercy is not the only thing which would become the throne monarch better than his crown.

GEO. CRAWFORD PLAYS SANTA TO BOYS' ON XMAS

DRESSED IN RED SUIT, ALBANY
MAN MAKES MEMBERS
HAPPY AS KIDS

HAVE YOU A LETTER?
Send in your letters from soldiers and sailors abroad, or interesting letters from boys in cantonments in this country. Letters describing battles or scenes in France and occupied Germany are of timely interest.

How First Sergeant George H. Crawford, son of W. W. Crawford, well known Ford dealer, played Santa Claus to the boys of Battery D, 60th artillery, at Lausane, France, on Christmas, is told in the following letter. Sgt. Crawford finds much interest in tractors.

"There are hundreds of Ford tractors on this side," writes Sergeant Crawford, "all camouflaged up. Sgt. Chase was in Bordeaux last week and saw one pulling a few cascoes and two fieldpieces coming down the street with three or four Americans on the pieces to brake them. Said it sure looked good to him. He said they were traveling at a good speed for a tractor. The tractors we had were Holt Cate—25 and 120 horsepower.

Was Santa Claus
I am the sergeant in charge of Battery D, 60th artillery, at Lausane, France, and when Christmas came we were in quarantine for mumps, so we had a real tree. We got a large box of trimmings from the Y. M. C. A. and had it all decorated like the home folks do. Had a few songs and stunts and the band

BEAUTIFY YOUR HOME WITH

Kapok

Sun Fast Fabrics

THE REVELATION IN DRAPERY?

COME AND SEE how beautiful it is, how soft and silky, how charming in colors and designs—then learn how much less expensive it is than ordinary silk that fades. 'KAPOCK' never fades in either sun or water; never loses its original sheen and readily sheds dust. Double width, which means less to buy. Comes in a variety of colors and designs to harmonize with the decoration of your rooms. 'KAPOCK' edgings made to match.

See these marvels of drapery on display in our Drapery Department.

Bates Steel Mule

THE MOST EFFICIENT TRACTOR IN AMERICA

The Motor is a distinct heavy-duty tractor type—four cylinder, valve-in-head—developing power far in excess of its class requirements. It is designed for burning kerosene, distillate, or any grade fuel as low as 38 degree Baume test. It has Timken nickel steel roller bearings throughout and all moving parts are thoroughly protected against dust. Exceptional flexibility protects the BATES STEEL MULE from all internal strains when working on rough, uneven ground. This means not only longer life but also continued high efficiency because it keeps every bearing in perfect alignment.

MURPHY & HAROLD

Also Agents for Allwork and Sampson Tractor, Tractor Equipment and Trucks from One to Five Tons
AT IRVIN'S GARAGE ALBANY, OREGON

played several selections. As usual our candles caught the tree afire but we got them out at once. And the boss of the 161 Ranch and to act as Santa. So I had a red coat and pants trimmed in white with a few spots of black, a cap and whiskers. God, I looked real.

Served hot chocolate, doughnuts and one-half pound stick candy to all the boys. They will never forget it. Bill Bowden, Walter Gilbert, John Clellen, and Ernest Smith were the Albany boys.

Looks for Oregon Again

We are near a port of embarkation waiting to leave for God's country. Guess we won't be here much longer. Sgt. George Gates of Medford was here yesterday to visit us. He came across with the 6th artillery. His father is a Ford dealer at Medford. Had some good tales to tell. Lillard is north of us about 300 kilometers. Bloom is driving a mail wagon (Dodge) for his regiment.

Haven't had any chance to get many souvenirs yet. Things are slow and tiresome waiting around. Government is shipping men home very fast, but we have to take our turn. I have plenty of money, but can use plenty of candy. We can buy very little here. I wrote them to send it to you. I have 500 francs and some American money on hand and a payday in sight soon.

Enjoyed Albany Fruit
"I won't be out for several months yet and maybe not then," writes Hugh

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to
Bring Back Color and
Lustre to Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair. Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Hammerly, formerly circulation manager of the Democrat out now in base hospital laboratory service at Camp Lewis.

"The patients are the fewest here that they ever have been, only about 1,000 in the base hospital. There isn't any flu at all.

"I am working in the bacteriology laboratory. Am head of the department on stomach analysis.

"A few weeks ago we received some canned fruit and the box came from Albany. All the boys wanted to know where this Albany was as they said the fruit was sure great. The fruit was used for the sick boys."

REBEKAHS ATTENTION
Meeting Friday, Feb. 7th. Installation of officers and covered dish supper.

Plans for Farm Buildings.
BERKELEY, Feb. 5.—Special—Plans for farm buildings of various kinds, are available for farmers of the state through the agricultural extension division of the University of California, according to a recent announcement made by Dean Thomas Forsyth Hunt. The division is ready to lend from its office at Berkeley plans for farmhouses, barns, silos,

septic tanks and hog and poultry houses. So many of the plans sent out during the past year and a half have been borrowed by neighbors from the farmers first using them that it has been necessary to have extra sets printed.

Protect the Naturally Defective Eyes of the young child, allowing them to develop without strain, and you will be repaid with strong eyes in later life. Abuse immature eyes and it will necessitate glasses—not for a few years only, but for a life-time.
