**ALBERS COMPANY ASKS FAIR PLAY**

HENRY ALBERS IS NO LONGER EVEN A STOCKHOLDER IN MILL CONCERN

PORTLAND, Feb. 19.—Since the jury found Henry Albers guilty on two of the seven counts in the indictment brought against him under the espionage act, the Albers Bros' Milling company has been busy looking after its 'fences.'

It appears that Henry Albers, who never did own more than ten per cent of the stock of the Albers Bros' Milling company, is now absolutely out of it, his shares having been bought by other shapers some time ago. It is rumored that some of the leading employees of the concern were among the purchasers.

Just what effect, if any, the Henry Albers case will have on the business of the company, is a matter of speculation.

"The difference between Henry Albers and his brothers," said a man who is generally well informed on everything in the trade, "was that Henry remained a bachelor and did not have the opportunity of home associations."

"His brothers all married American girls. They have all been fathers of children who will be American citizens by their birthright and with everything near and dear to these Americans, they are just naturally thoroughly American themselves."

**"Silence Lanes" in Fog.**

One of the freaks that mariners have to contend with is silence lanes in fog. These lanes not only retard the sound of foghorns, but stop it entirely. A lookout man on a ship may not be able to hear the foghorn of a closely vessel if his ship is in one of those silence lanes in time to give warning of its proximity.

It sometimes happens that there is a zone through which the sound carries exceptionally well, and the lookout men of vessels in such a zone are unable to judge the distance away of another vessel, whose foghorn they hear so distinctly.

**Horses Generously Fed.**

Horses in the veterinary hospitals on the British front in France were fed four times a day. The more debilitated ones were fed five or six times. When they were particularly run down the patients got nothing but cooked foods. They received tonics, too, and it was remarkable to see the improvement in their condition that a few weeks effected.

**Precarious Situation.**

"How about a jury for this automobile colliding case?"  
"We're up a tree," said the lawyer on the other side.  
"How so?"  
"Well, a jury of motor owners will be as wise as all got out about an affair of this kind."  
"True."  
"While a jury of nonmotorists may sink the pair of us."

**A Real Optimist.**

"The half-headed man who just went out is the greatest optimist I ever met," said the druggist.  
"That so?" asked the customer.  
"Yes," replied the druggist. "When I guaranteed my brand of hair restorer he bought a bottle and bought a comb and brush because he figured he'd need them in a few days."—Cincinnati Enquirer.

**On Business Trip—**  
Mr. and Mrs. H. Decious went to Salem Saturday morning on business.

**PUT STOMACH IN FINE CONDITION**

Sign Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heart-burn, flatulence, water-brash or nausea. He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescing and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.

**MUST MEET WAR BILLS WITH LOAN—GOV. LYNCH**

To the Citizens of the Twelfth Federal Reserve District:  
The Fifth "Victory" Liberty Loan is in sight. Let us thank God that it is not just the Fifth Loan. Victory means the end of the war, the end of loans, the dawn of peace and prosperity. It means that the market price of government bonds will soon stabilize at par or better. It also means that commercial, agricultural, and industrial affairs will stabilize, and that the Hun-inspired clamor will cease.

JAMES K. LYNCH  
Governor, 12th Federal Reserve District

We were advised that the war would last through 1919, probably through 1920, so we were prepared for that; to have done less would have been suicide. We prepared to crush the Hun on his own ground, and he prudently quit. It cost us some money but it saved the lives of half a million of our men. Was money ever better spent!

Now we have bills to pay, promises to make good, our men to bring home. This will take from five to six billion dollars. Let us get ready and raise it. A big task, but the last, and therefore easy. All together, shoulder to shoulder, and the loan goes over!

The "Ninety-first" is the Pacific Coast Division; remember their achievement, and honor ourselves by living up to it.

JAMES K. LYNCH,  
Governor, Federal Reserve Bank of San Francisco; Chairman, Liberty Loan General Executive Board, Twelfth Federal Reserve District.
